
RESOURCES

FOR

Shahriar Shahriari, *Algebra in Action, A Course in Groups, Rings, and Fields*, AMS, 2017.

Solution Manual. A partial solution manual with solutions to over 700 of the problems is available only to instructors who have adopted the text for their classes. Contact the author directly via email (sshahriari at pomona dot edu).

Detailed Class Plan. A detailed class plan for teaching a semester course on Groups & Rings, as well as a self-study guide for a semester course on Galois Theory is available on the publisher's webpage for the text. (Go to <https://www.ams.org/book.pages/amstext-27>.)

Errata. A list of typos and errors is updated regularly and is available on the publisher's webpage for the text. (Go to <https://www.ams.org/book.pages/amstext-27>.) Please inform of the author of any missed errors.

Contact the Author. If you are considering the book for your class, feel free to contact the author (sshahriari at pomona dot edu) directly via email to discuss your course. If you have already used the text, the author is very interested in your feedback.
