

In April every year, the AMS pays authors royalties on book revenues. However, each year, we find that we have incorrect addresses for many authors, and we can't pay them. We are seeking address and contact information for the authors shown on the list below. Please review this list and let us know if you are one of our "lost" authors, or if you know the whereabouts of anyone on the list. Author's contact information can be sent to us using the form below,

it is important to get the contact information to us before May 31, 2014. After this date, we must send some of the royalties to the state as unclaimed property.

Reply by May 31, 2014
