The AWM Research Symposium 2017 Lecture Sampler
The Symposium (April 8–9, 2017 at UCLA) will showcase the research of women in the mathematical professions. Some of the plenary speakers and members of the committee have offered to share a sneak-peek of their presentations with Notices.

A Literary Spotlight on Women in Mathematics

Change Is Possible
Stories of Women and Minorities in Mathematics
Patricia Clark Kenschaft, Montclair State University, Upper Montclair, NJ
The role of minority and women mathematicians in developing our American mathematical community is an important but previously under-told story. Pat Kenschaft, in her highly readable and entertaining style, fills this knowledge gap. This valuable book should be in your personal library!
—Donald G. Saari, University of California, Irvine

Pioneering Women in American Mathematics
The Pre-1940 PhD’s
Judy Green, Marymount University, Arlington, VA, and Jeanne LaDuke, DePaul University, Chicago, IL
What a service Judy Greene and Jeanne LaDuke have done the mathematics community! Approximately thirty years of research have produced a detailed picture of graduate mathematics for women in the United States before 1940.
... The book is well-organized and well-written, and I recommend it heartily to all.
