### Tianjin University, China Tenured/Tenure-Track/Postdoctoral Positions at The Center for Applied Mathematics

Dozens of positions at all levels are available at the recently founded Center for Applied Mathematics, Tianjin University, China. We welcome applicants with backgrounds in pure mathematics, applied mathematics, statistics, computer science, bioinformatics, and other related fields. We also welcome applicants who are interested in practical projects with industries. Despite its name attached with an accent of applied mathematics, we also aim to create a strong presence of pure mathematics. Chinese citizenship is not required.

Light or no teaching load, adequate facilities, spacious office environment,

and strong research support. We are prepared to make quick and competitive offers to self-motivated hard workers, and to potential stars, rising stars, as well as shining stars.

The Center for Applied Mathematics, also known as the Tianjin Center for Applied Mathematics (TCAM), located by a lake in the central campus in a building protected as historical architecture, is jointly sponsored by the Tianjin municipal government and the university. The initiative to establish this center was taken by Professor S. S. Chern. Professor Molin Ge is the honorary director, Professor Zhiming Ma is the director of the Advisory Board. Professor William Y. C. Chen serves as the director.

TCAM plans to fill in fifty or more permanent faculty positions in the next few years. In addition, there are a number of temporary and visiting positions. We look forward to receiving your

application or inquiry at any time. There are no deadlines.

To apply, send your resume to zhangry@tju.edu.cn.

For more information, please visit [www.cam.tju.edu.cn](http://www.cam.tju.edu.cn) or contact Ms. Debbie Renyuan Zhang at [zhangry@tju.edu.cn](mailto:zhangry@tju.edu.cn), telephone: 86-22-2740-5389.

**Suggested uses** for classified advertising are positions available, books or lecture notes for sale, books being sought, exchange or rental of houses, and typing services. The publisher reserves the right to reject any advertising not in keeping with the publication's standards. Acceptance shall not be construed as approval of the accuracy or the legality of any advertising.

**The 2017 rate is** \$3.50 per word with a minimum two-line headline. No discounts for multiple ads or the same ad in consecutive issues. For an additional \$10 charge, announcements can be placed anonymously. Correspondence will be forwarded.

Advertisements in the "Positions Available" classified section will be set with a minimum one-line headline, consisting of the institution name above body copy, unless additional headline copy is specified by the advertiser. Headlines will be centered in boldface at no extra charge. Ads will appear in the language in which they are submitted.

There are no member discounts for classified ads. Dictation over the telephone will not be accepted for classified ads.

**Upcoming deadlines** for classified advertising are as follows: May 2017—March 9, 2017; June/July 2017—May 9, 2017; August 2017—June 6, 2017; September 2017—July 7, 2017; October 2017—August 4, 2017; November 2017—December 5, 2017; .

**US laws prohibit** discrimination in employment on the basis of color, age, sex, race, religion, or national origin. "Positions Available" advertisements from institutions outside the US cannot be published unless they are accompanied by a statement that the institution does not discriminate on these grounds whether or not it is subject to US laws. Details and specific wording may be found on page 1373 (vol. 44).

**Situations wanted advertisements** from involuntarily unemployed mathematicians are accepted under certain conditions for free publication. Call toll-free 800-321-4AMS (321-4267) in the US and Canada or 401-455-4084 worldwide for further information.

**Submission:** Promotions Department, AMS, P.O. Box 6248, Providence, Rhode Island 02904; or via fax: 401-331-3842; or send e-mail to [classads@ams.org](mailto:classads@ams.org). AMS location for express delivery packages is 201 Charles Street, Providence, Rhode Island 02904. Advertisers will be billed upon publication.

CONSULTANT SOUGHT

To Help Prepare Paper, "A Solution to the  $3x+1$  Problem," for Publication

Considerable prestige is awaiting the mathematician who helps me prepare the paper for publication, and who writes the editor stating the mathematician's opinion that my solution is correct. (My degree is in computer science, and most of my career has been spent as a researcher in the computer industry.)

I will be glad to offer shared-authorship for contribution to the content.

A brief summary of the Solution—i.e., of a proof of the  $3x+1$  Conjecture—is available in Appendix E of the paper.

The paper is on the website [occampress.com](http://occampress.com).

Peter Schorer, [peteschorer@gmail.com](mailto:peteschorer@gmail.com).

# Titles in Applied Math from SIAM

New Editions Available

## MATLAB Guide, Third Edition

Desmond J. Higham and Nicholas J. Higham

This third edition of *MATLAB Guide* completely revises and updates the best-selling second edition and is more than 25 percent longer. It remains a lively, concise introduction to the most popular and important features of MATLAB® and the Symbolic Math Toolbox.

2017 • xxvi + 476 pages • Hardcover • 978-1-611974-65-2  
List \$62.00 • SIAM Member \$43.40 • OT150

## Learning LaTeX, Second Edition

David F. Griffiths and Desmond F. Higham

"I never would have thought it possible, but the new edition is a substantial improvement with the additional coverage of BiTeX, Beamer, and posters. *Learning LaTeX* should be handed to new graduate students in mathematical sciences along with their office key and ID card."

— Don Estep, Colorado State University

2016 • x + 103 pages • Softcover • 978-1-611974-41-6  
List \$29.00 • SIAM Member \$20.30 • OT148

## Data Assimilation: Methods, Algorithms, and Applications

Mark Asch, Marc Bocquet, Maëlle Nodet

*Fundamentals of Algorithms 11*

This book places data assimilation into the broader context of inverse problems and the theory, methods, and algorithms that are used for their solution. Readers will find a comprehensive guide that is accessible to nonexperts and the latest methods for advanced data assimilation, combining variational and statistical approaches.

2017 • xviii + 306 pages • Softcover • 978-1-611974-53-9  
List \$84.00 • SIAM Member \$58.80 • FA11

## Barriers and Transport in Unsteady Flows: A Melnikov Approach

Sanjeeva Balasuriya

*Mathematical Modeling and Computation 21*

How do coherent structures exchange fluid with their surroundings? What is the impact on global mixing? What is the "boundary" of the structure, and how does it move? This book addresses these issues from the perspective of the differential equations that must be obeyed by fluid particles.

2016 • xiv + 264 pages • Softcover • 978-1-611974-57-7  
List \$84.00 • SIAM Member \$58.80 • MM21

All prices are in US dollars.

## AIMD Dynamics and Distributed Resource Allocation

M. Corless, C. King, R. Shorten, and F. Wirth

*Advances in Design and Control 29*

This is the first comprehensive book on the AIMD algorithm, the most widely used method for allocating a limited resource among competing agents without centralized control. The original and best-known application of the algorithm is in the context of congestion control and resource allocation on the Internet, and readers will find details of several variants of the algorithm.

2016 • xiv+235 pages • Softcover  
978-1-611974-21-8 • List \$84.00  
SIAM Member \$58.80 • DC29

## Differential Dynamical Systems, Revised Edition

James D. Meiss

*Mathematical Modeling and Computation 22*

*Differential Dynamical Systems* begins with coverage of linear systems, including matrix algebra; the focus then shifts to foundational material on nonlinear differential equations, making heavy use of the contraction-mapping theorem. This new edition contains several important updates and revisions throughout the book.

2017 • xviii + 392 pages • Softcover  
978-1-611974-63-8 • List \$87.00  
SIAM Member \$60.90 • MM22

## ORDER at [bookstore.siam.org](http://bookstore.siam.org)

Please mention "BKNO17" when you order.

Use your credit card (AMEX, MasterCard, or VISA) when ordering online, by phone at +1-215-382-9800 worldwide or toll free at 800-447-SIAM in USA and Canada, or by fax at +1-215-386-7999 • Send check or money order to: SIAM, Dept. BKNO17, 3600 Market Street, 6th Floor, Philadelphia, PA 19104-2688.
