BERTRAND RUSSELL PRIZE OF THE AMS

The Bertrand Russell Prize of the AMS was established in 2016 by Thomas Hales.

The prize looks beyond the confines of our profession to research or service contributions of mathematicians or related professionals promoting good in the world. It recognizes the various ways that mathematics furthers fundamental human values. The mission of the American Mathematical Society includes:

- Promoting the uses of mathematical research
- Advancing the status of the profession of mathematics
- Fostering an awareness and appreciation of mathematics and its connections to other disciplines and everyday life

This prize is designed to promote these goals. Mathematical contributions that further world health, our understanding of climate change, digital privacy, or education in developing countries, are some examples of the type of work that might be considered for the prize.

The US\$5,000 prize is awarded every three years. The first award will be made in 2018.

Further information about AMS prizes can be found at the Prizes and Awards website:

www.ams.org/profession/prizes-awards/prizes

Further information and instructions for submitting a nomination can be found at the prize nominations website:

www.ams.org/profession/prizes-awards/nominations

For questions contact the AMS Secretary at secretary@ams.org

Nomination Period: March 1–June 30, 2017
