

CALL FOR NOMINATIONS

D. R. FULKERSON PRIZE

The Fulkerson Prize Committee invites nominations for the Delbert Ray Fulkerson Prize, sponsored jointly by the Mathematical Optimization Society (MOS) and the American Mathematical Society. Up to three awards of \$1,500 each are presented at each (triennial) International Symposium of the MOS. The Fulkerson Prize is for outstanding papers in the area of discrete mathematics. The prize will be awarded at the 23rd International Symposium on Mathematical Programming to be held in Bordeaux, France on July 1–6, 2018.

Eligible papers should represent the final publication of the main result(s) and should have been published in a recognized journal or in a comparable, well-refereed volume intended to publish final publications only, during the six calendar years preceding the year of the Symposium (thus, from January 2012 through December 2017). The prizes will be given for single papers, not series of papers or books, and in the event of joint authorship the prize will be divided.

The term “discrete mathematics” is interpreted broadly and is intended to include graph theory, networks, mathematical programming, applied combinatorics, applications of discrete mathematics to computer science, and related subjects. While research work in these areas is usually not far removed from practical applications, the judging of papers will only be based on their mathematical quality and significance. Further information about the Fulkerson Prize can be found at www.mathopt.org/?nav=fulkerson and at www.ams.org/prizes/fulkerson-prize.html.

The Fulkerson Prize Committee consists of Maria Chudnovsky (Princeton University), Friedrich Eisenbrand (EPFL), Chair, and Martin Grötschel (Berlin-Brandenburgische Akademie der Wissenschaften). Please send your nominations (including reference to the nominated article and an evaluation of the work) by **February 15, 2018**, to the chair of the committee. Electronic submissions to Professor Eisenbrand at Friedrich.Eisenbrand@epfl.ch are preferred.
