Editorial Board

A. B. Aleksandrov (Executive Secretary)	N. Yu. Netsvetaev
A. N. Andrianov (Managing Editor)	N. K. Nikol'skiĭ (Managing Editor)
V. M. Babich	M. A. Semenov-Tyan-Shanskii
M. Sh. Birman	A. O. Slisenko
V. S. Buslaev	A. A. Suslin
S. V. Buyalo	N. N. Ural'tseva
O. Ya. Viro	V. P. Khavin
S. V. Kislyakov (Managing Editor)	A. V. Yakovlev

SUBSCRIPTION INFORMATION. The 2004 subscription is for one volume of six issues. Beginning in 2004, *St. Petersburg Mathematical Journal* is accessible from www.ams.org/journals/. Subscription prices for Volume 15 are \$1546 list, \$1237 institutional member. Upon request, subscribers to paper delivery of this journal are also entitled to receive electronic delivery. For paper delivery, subscribers outside the United States and India must pay a postage surcharge of \$14; subscribers in India must pay a postage surcharge of \$23. Expedited delivery to destinations in North America \$21; elsewhere \$56. A late charge of 10% of the subscription price will be imposed upon orders received from nonmembers after January 1 of the subscription year.

BACK NUMBER INFORMATION. For back issues see www.ams.org/bookstore.

Orders for subscriptions and publications of the American Mathematical Society should be addressed to the American Mathematical Society, P.O. Box 845904, Boston, MA 02284-5904 USA. *All orders must be accompanied by payment.* Other correspondence should be addressed to 201 Charles Street, Providence, RI 02904-2294 USA.

COPYING AND REPRINTING. Material in this journal may be reproduced by any means for educational and scientific purposes without fee or permission with the exception of reproduction by services that collect fees for delivery of documents and provided that the customary acknowledgment of the source is given. This consent does not extend to other kinds of copying for general distribution, for advertising or promotional purposes, or for resale. Requests for permission for commercial use of material should be addressed to the Acquisitions Department, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294 USA. Requests can also be made by e-mail to reprint-permission@ams.org.

St. Petersburg Mathematical Journal is published bimonthly by the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294 USA. Periodicals postage paid at Providence, Rhode Island. Postmaster: Send address changes to St. Petersburg Mathematical Journal, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294 USA.

Manuscripts should be addressed to “Algebra i Analiz”, St. Petersburg Publishing Company of the Russian Academy of Sciences, Mendelevskaya Liniya 1, St. Petersburg 199034, Russia. Submitting simultaneously a tex-file to the address pmj@pdmi.ras.ru is highly appreciated.

This journal is indexed in *Mathematical Reviews* and *Zentralblatt MATH*.

Translation authorized by the All-Union Agency for Author's Rights, Moscow.

Printed in the United States of America.

⊗ The paper used in this journal is acid-free and falls within the guidelines established to ensure permanence and durability.

ST. PETERSBURG MATHEMATICAL JOURNAL

Volume 15, Numbers 1–6, 2004

TOM 15, №1–6, 2003

AUTHOR INDEX

- Andrianov, A. N. *Action of Hecke operators on theta-functions with rational characteristics*, 715
- Apushkinskaya, D. E., Ural'tseva, N. N., and Shahgholian, H. *Lipschitz property of the free boundary in the parabolic obstacle problem*, 375
- Baranov, A. D. *Weighted Bernstein-type inequalities, and embedding theorems for the model subspaces*, 733
- Birman, M. Sh. *On homogenization procedure for periodic operators near the edge of an internal gap*, 507
- Birman, M. Sh., and Suslina, T. A. *Second order periodic differential operators. Threshold properties and homogenization*, 639
- Buyalo, S. *An estimate for the volume entropy of nonpositively curved graph-manifolds*, 41
- Daugavet, I. K. *Some convergence problems for weak norms*, 575
- Ershov, Yu. L. *Local class field theory*, 837
- Escauriaza, L., Seregin, G., and Šverák, V. *Backward uniqueness for the heat operator in a half-space*, 139
- Evdokimov, S. A., and Ponomarenko, I. N. *Circulant graphs: recognizing and isomorphism testing in polynomial time*, 813
- Farforovskaya, Yu. B. *See Nikolskaya, L. N.*
- Gamal', M. F. *C₀-contractions: a Jordan model and lattices of invariant subspaces*, 773
- Gantsev, S. N. *See Krivosheev, A. C.*
- Gesztesy, Fritz, and Makarov, Konstantin A. *SL₂(R), exponential Herglotz representations, and spectral averaging*, 393
- Gordin, M. *See Götze, F.*
- Gorin, E. A., and Kukushkin, B. N. *Integrals related to the Cantor function*, 449
- Götze, F., and Gordin, M. *Limiting distributions of theta series on Siegel half-spaces*, 81
- Ivanov, S. A. *See Vlasov, V. V.*
- Kamotskii, V. V. *The incidence of the plane wave on an elastic wedge at a critical angle*, 419
- Khavinson, S. Ya. *Duality relations in the theory of analytic capacity*, 1
- Kislyakov, S. V. (Reviewer), *Hankel operators and their applications, by Vladimir Peller*, 969
- Kokarev, G., and Kuksin, S. *Quasilinear elliptic differential equations for mappings between manifolds, I*, 469
- Kolgushkin, P. A. *Classification of simple multigerms of curves in a space with symplectic structure*, 103

- Krivosheev, A. C., and Gantsev, S. N. *Solvability of systems of nonhomogeneous convolution equations in convex domains in \mathbb{C}* , 847
- Kuksin, S. *See* Kokarev, G.
- Kukushkin, B. N. *See* Gorin, E. A.
- Lebedeva, N. D. *Exponential growth of spaces without conjugate points*, 127
- Makarov, Konstantin A. *See* Gesztesy, Fritz
- Makeev, V. V. *Some geometric properties of convex bodies. II*, 867
- Maksimenko, I. E., and Skopina, M. A. *Multivariate periodic wavelets*, 165
- Malamud, M. M., and Malamud, S. M. *Spectral theory of operator measures in Hilbert space*, 323
- Malamud, S. M. *See* Malamud, M. M.
- Malyshev, V. A. *Cell structure of the space of real polynomials*, 191
_____. *Periods of quadratic irrationalities, and torsion of elliptic curves*, 587
- Malyutin, A. V., and Netsvetaev, N. Yu. *Dehornoy's ordering on the braid group and braid moves*, 437
- Matyukevich, S. *On the nonstationary Maxwell system in domains with edges*, 875
- Nazarov, F. *See* Volberg, A.
- Netsvetaev, N. Yu. *See* Malyutin, A. V.
- Nikolskaya, L. N., and Farforovskaya, Yu. B. *Toeplitz and Hankel matrices as Hadamard–Schur multipliers*, 915
- Panov, A. N. *Irreducible representations of quantum solvable algebras at roots of 1*, 603
- Petrov, V. A. *See* Vavilov, N. A.
- Ponomarenko, I. N. *See* Evdokimov, S. A.
- Seregin, G. *See* Escauriaza, L.
- Shahgholian, H. *See* Apushkinskaya, D. E.
- Shumakovich, A. *Casson invariant of knots associated with divides*, 625
- Skopina, M. A. *See* Maksimenko, I. E.
- Smirnov, S. V. *Cyclic Darboux q-chains*, 795
- Spiridonov, V. P. *Theta hypergeometric integrals*, 929
- Suslina, T. A. *Discrete spectrum of a two-dimensional periodic elliptic second order operator perturbed by a decaying potential. II. Internal gaps*, 249
_____. *See* Birman, M. Sh.
- Šverák, V. *See* Escauriaza, L.
- Ural'tseva, N. N. *See* Apushkinskaya, D. E.
- Vasyunin, V. *The sharp constant in the reverse Hölder inequality for Muckenhoupt weights*, 49
- Vavilov, N. A., and Petrov, V. A. *Overgroups of elementary symplectic groups*, 515
- Vlasov, V. V., and Ivanov, S. A. *Sobolev space estimates for solutions of equations with delay, and the basis of divided differences*, 545
- Volberg, A., and Nazarov, F. *Heating of the Ahlfors–Beurling operator, and estimates of its norm*, 563
- Volchkov, Vit. V., and Volchkova, N. P. *Inversion Theorems for the local Pompeiu transformation in the quaternion hyperbolic space*, 753

Volchkova, N. P. *See* Volchkov, Vit. V.

Yakovlev, S. I. *Uniqueness theorem and singular spectrum in the Friedrichs model near a singular point*, 149

Yakubovich, D. V. *Linearly similar Szökefalvi-Nagy–Foiaş model in a domain*, 289

St. Petersburg Mathematical Journal
(Formerly Leningrad Mathematical Journal)
CONTENTS

Volume 15, Number 1, 2004

Expository Survey

S. Ya. Khavinson, Duality relations in the theory of analytic capacity ...	1
--	---

Research Papers

S. Buyalo, An estimate for the volume entropy of nonpositively curved graph-manifolds	41
V. Vasyunin, The sharp constant in the reverse Hölder inequality for Muckenhoupt weights	49
F. Götze and M. Gordin, Limiting distributions of theta series on Siegel half-spaces	81
P. A. Kolgushkin, Classification of simple multigerms of curves in a space with symplectic structure	103
N. D. Lebedeva, Exponential growth of spaces without conjugate points ..	127
L. Escauriaza, G. Seregin, and V. Šverák, Backward uniqueness for the heat operator in a half-space	139
S. I. Yakovlev, Uniqueness theorem and singular spectrum in the Friedrichs model near a singular point	149

Volume 15, Number 2, 2004

Research Papers

I. E. Maksimenko and M. A. Skopina, Multivariate periodic wavelets ..	165
V. A. Malyshev, Cell structure of the space of real polynomials	191
T. A. Suslina, Discrete spectrum of a two-dimensional periodic elliptic second order operator perturbed by a decaying potential. II. Internal gaps	249
D. V. Yakubovich, Linearly similar Szökefalvi-Nagy–Foiaş model in a domain	289

Volume 15, Number 3, 2004

Expository Survey

M. M. Malamud and S. M. Malamud, Spectral theory of operator measures in Hilbert space	323
--	-----

Research Papers

D. E. Apushkinskaya, N. N. Ural'tseva, and H. Shahgholian, Lipschitz property of the free boundary in the parabolic obstacle problem	375
Fritz Gesztesy and Konstantin A. Makarov, $SL_2(\mathbb{R})$, exponential Herglotz representations, and spectral averaging	393
V. V. Kamotskii, The incidence of the plane wave on an elastic wedge at a critical angle	419
A. V. Malyutin and N. Yu. Netsvetaev, Dehornoy's ordering on the braid group and braid moves	437

Easy Reading for Professionals

E. A. Gorin and B. N. Kukushkin, Integrals related to the Cantor function	449
---	-----

Volume 15, Number 4, 2004

Expository Survey

G. Kokarev and S. Kuksin, Quasilinear elliptic differential equations for mappings between manifolds, I	469
---	-----

Research Papers

M. Sh. Birman, On homogenization procedure for periodic operators near the edge of an internal gap	507
N. A. Vavilov and V. A. Petrov, Overgroups of elementary symplectic groups	515
V. V. Vlasov and S. A. Ivanov, Sobolev space estimates for solutions of equations with delay, and the basis of divided differences	545
A. Volberg and F. Nazarov, Heating of the Ahlfors–Beurling operator, and estimates of its norm	563
I. K. Daugavet, Some convergence problems for weak norms	575
V. A. Malyshev, Periods of quadratic irrationalities, and torsion of elliptic curves	587
A. N. Panov, Irreducible representations of quantum solvable algebras at roots of 1	603
A. Shumakovitch, Casson invariant of knots associated with divides	625

Volume 15, Number 5, 2004

Expository Survey

M. Sh. Birman and T. A. Suslina, Second order periodic differential operators. Threshold properties and homogenization	639
--	-----

Research Papers

A. N. Andrianov, Action of Hecke operators on theta-functions with rational characteristics	715
A. D. Baranov, Weighted Bernstein-type inequalities, and embedding theorems for the model subspaces	733
Vit. V. Volchkov and N. P. Volchkova, Inversion Theorems for the local Pompeiu transformation in the quaternion hyperbolic space	753
M. F. Gamal', C_0 -contractions: a Jordan model and lattices of invariant subspaces	773
S. V. Smirnov, Cyclic Darboux q -chains	795

Volume 15, Number 6, 2004

Research Papers

S. A. Evdokimov and I. N. Ponomarenko, Circulant graphs: recognizing and isomorphism testing in polynomial time	813
Yu. L. Ershov, Local class field theory	837
A. C. Krivosheev and S. N. Gantsev, Solvability of systems of nonhomogeneous convolution equations in convex domains in \mathbb{C}	847
V. V. Makeev, Some geometric properties of convex bodies. II	867
S. Matyukevich, On the nonstationary Maxwell system in domains with edges	875
L. N. Nikolskaya and Yu. B. Farforovskaya, Toeplitz and Hankel matrices as Hadamard–Schur multipliers	915
V. P. Spiridonov, Theta hypergeometric integrals	929

Book Review

S. V. Kislyakov (Reviewer), Hankel operators and their applications, by Vladimir Peller	969
---	-----

(Continued from back cover)

Никольская Л. Н., Фарфоровская Ю. Б. Тёплицевы и ганкелевы матрицы как мультиплекторы Адамара-Шура	141
Spiridonov V. P. Theta Hypergeometric Integrals	161

Рецензии

Кисляков С. В. Vladimir V. Peller. Hankel operators and their applications. Springer Monographs in Mathematics, Springer- Verlag, New York-Berlin-Heidelberg, 2003, p.p.viii + 784.	216
