OPEN POSITION
Programmer/Analyst
Information Systems Department

The American Mathematical Society (AMS), founded in 1888, is a non-profit membership organization that promotes interest and research in mathematics through its publications, meetings, programs, services, advocacy, and outreach activities. The AMS has 30,000 members worldwide and offices in Rhode Island, Michigan, and Washington, DC.

The AMS in Providence, RI is seeking qualified candidates for a Programmer/Analyst position. The ideal candidate has a strong background in C#, Visual Basic, Microsoft SQL Server, and RESTful web services technologies. This candidate will play a critical software development role to satisfy business needs.

Come and be part of an extraordinary collection of talent who support the Society’s pervasive activities.

RESPONSIBILITIES:
- Perform all functions in the software development life cycle (specification, analysis, design, coding, testing, documentation, maintenance, and support) with particular focus on software related to the “Personify” association management system (i.e. C#, Visual Basic, MS Visual Studio, Microsoft SQL Server, RESTful Web Services, DNN)
- Develop software solutions utilizing Personify-related development tools (Personify version 7.6.1)
- Work both independently and in a team-oriented environment. Collaborate with other programmers, designers, and system administrators to integrate software solutions that support the business needs of the organization
- Assist in the definition, development, and documentation of software’s business requirements, objectives, deliverables, and specifications on a project-by-project basis in collaboration with internal users and departments
- Maintain and support existing software systems including producing and maintaining program and user documentation
- Research emerging software products, languages, standards, and other technologies in support of the business needs of the organization
- Ability to simultaneously manage multiple projects with deadlines are required
- Excellent oral and written communication skills

QUALIFICATIONS:
- Working knowledge with 3+ years of experience of the following is required: .NET 4.5, C#, Visual Basic, Microsoft SQL Server, Microsoft Visual Studio, RESTful web services
- Working knowledge of any of the following is highly desired: DotNetNuke, JSON, Ajax, jQuery, JavaScript, IIS, MySQL, Perl, Personify (Association Management Software)

EDUCATION and/or EXPERIENCE:
- Minimum of a bachelor's degree in a computer-related major from an accredited Institution or commensurate experience

The AMS offers excellent benefits including competitive salaries, health and dental, very generous retirement plan contributions and investment options through TIAA-CREF, flexible spending benefit, generous paid leave, paid life insurance, flexible work hours to help provide work/life balance, free parking, a casual and relaxed work environment, computing benefit, tuition assistance, professional development opportunities and much more.
