

Meeting: 1000, Albuquerque, New Mexico, SS 14A, Special Session on Braids and Knots

1000-57-207 **Oliver Dasbach*** (kasten@math.lsu.edu), Department of Mathematics, LSU, Baton Rouge, LA 70803, and **Xiao-Song Lin.** *Hyperbolic Volume vs. Knot Polynomials.* Preliminary report.

This is a report on our ongoing efforts to understand the relationship between the hyperbolic volume and knot polynomials. (Received August 24, 2004)
