**Liping Yuan\*** (lpyuan@hebtu.edu.cn), College of Mathematics and Information Science, Hebei Normal University, Shijiazhuang, Hebei 050024, Peoples Rep of China. *Rupert Property of Convex Bodies.*

We say that a convex body  $C$  has the *Rupert property* if we can make a hole large enough in  $C$  to permit another copy of  $C$  to pass through. In this talk we'll discuss the Rupert property of some convex bodies. (Received January 28, 2019)
