**Sean K Sather-Wagstaff\*** ([ssather@clemons.edu](mailto:ssather@clemons.edu)). *Applications of Differential Graded Algebra Techniques in Commutative Algebra.*

I will survey some of the applications by numerous authors of differential graded algebra techniques to homological problems in commutative algebra. This talk is not unrelated to a recent survey preprint <https://arxiv.org/abs/2011.02065> co-authored with S. Nasseh. (Received January 13, 2021)
