

CONTENTS

1. Introduction	1
1.1. Overview	1
1.2. Geometric Jacquet-Langlands	3
1.3. The Serre filtration	5
1.4. Degeneracy fibers	7
1.5. Questions	8
1.6. Acknowledgments	9
2. Shimura varieties	11
2.1. Hilbert modular varieties	11
2.2. Unitary Shimura varieties	13
2.3. Quaternionic Shimura varieties	17
3. Automorphic vector bundles	25
3.1. Construction of automorphic vector bundles	25
3.2. Relations among vector bundles	28
4. Iwahori level structures	33
4.1. The Hilbert modular setting	33
4.2. The unitary setting	37
4.3. Stratifications	43
5. A Jacquet-Langlands relation	47
5.1. Splicing	47
5.2. Unitary analogue of the theorem	51
5.3. Proof of Theorem A	60
5.4. Comparison of vector bundles	64
6. The Serre filtration	69
6.1. Dualizing sheaves	69
6.2. Dicing	74
6.3. Proof of Theorem B	78
7. Degeneracy fibers	89
7.1. Frobenius factorization	89
7.2. Crystallization	97
7.3. Cohomological vanishing	105
Bibliography	109
