

Contents

Preface	vii
Chapter 1. Basic notions	1
Chapter 2. Deformations and cohomology	19
Chapter 3. Finer structures of cohomology	25
Chapter 4. The gauge group	45
Chapter 5. The simplicial Maurer-Cartan space	55
Chapter 6. Strongly homotopy Lie algebras	69
Chapter 7. Homotopy invariance and quantization	75
Chapter 8. Brief introduction to operads	85
Chapter 9. L_∞ -algebras governing deformations	99
Chapter 10. Examples	113
Index	121
