

## CONTENTS

### PART ONE

#### Foundations of Number Theory

CHAPTER I:	The Greatest Common Divisor of Two Numbers. . . .	11
CHAPTER II:	Prime Numbers and Factorization into Prime Factors	18
CHAPTER III:	The Greatest Common Divisor of Several Numbers. .	26
CHAPTER IV:	Number-Theoretic Functions . . . . .	29
CHAPTER V:	Congruences . . . . .	37
CHAPTER VI:	Quadratic Residues . . . . .	53
CHAPTER VII:	Pell's Equation . . . . .	76

### PART TWO

#### Brun's Theorem and Dirichlet's Theorem

	Introduction . . . . .	87
CHAPTER I:	Some Elementary Inequalities of Prime Number Theory . . . . .	88
CHAPTER II:	Brun's Theorem on Prime Pairs. . . . .	94
CHAPTER III:	Dirichlet's Theorem on the Prime Numbers in an Arithmetic Progression . . . . .	104
	§ 1: Further Theorems on Congruences . . . . .	104
	§ 2: Characters . . . . .	109
	§ 3: <i>L</i> -Series . . . . .	115
	§ 4: Dirichlet's Proof . . . . .	125

### PART THREE

#### Decomposition into Two, Three, and Four Squares

	Introduction . . . . .	129
CHAPTER I:	Farey Fractions . . . . .	131
CHAPTER II:	Decomposition into Two Squares. . . . .	135

CHAPTER III:	Decomposition into Four Squares.....	141
	Introduction .....	141
	§ 1: Lagrange's Theorem .....	142
	§ 2: Determination of the Number of Solutions.	146
CHAPTER IV:	Decomposition into Three Squares.....	151
	§ 1: Equivalence of Quadratic Forms.....	151
	§ 2: A Necessary Condition for Decomposability into Three Squares .....	161
	§ 3: The Necessary Condition is Sufficient.....	162

## PART FOUR

**The Class Number of Binary Quadratic Forms**

	Introduction .....	167
CHAPTER I:	Factorable and Unfactorable Forms .....	170
CHAPTER II:	Classes of Forms .....	172
CHAPTER III:	The Finiteness of the Class Number.....	175
CHAPTER IV:	Primary Representations by Forms .....	180
CHAPTER V:	The Representation of $h(d)$ in terms of $K(d)$ .....	191
CHAPTER VI:	Gaussian Sums .....	197
	Appendix .....	202
	Introduction .....	202
	§ 1: Kronecker's Proof .....	203
	§ 2: Schur's Proof .....	207
	§ 3: Mertens' Proof .....	213
CHAPTER VII:	Reduction to Fundamental Discriminants.....	219
CHAPTER VIII:	The Determination of $K(d)$ for Fundamental Discriminants .....	221
CHAPTER IX:	Final Formulas for the Class Number.....	227

## APPENDIX

**Exercises**

	Exercises for Part One .....	233
	Exercises for Part Two .....	242
	Exercises for Part Three .....	247
INDEX OF CONVENTIONS; INDEX OF DEFINITIONS.....		253
INDEX .....		254
