PREFACE	vii
ACKNOWLEDGMENTS	ix
NOTATION	xi
1. Algebras, modules, and representations	1
Problems	11
2. Group representations and characters	13
Problems	29
3. Characters and integrality	33
Problems	44
4. Products of characters	47
Problems	59
5. Induced characters	62
Problems	73
6. Normal subgroups	78
Problems	95
7. T.I. sets and exceptional characters	99
Problems	121
	v

8. Brauer's theorem	126
Problems	141
9. Changing the field	144
Problems	156
10. The Schur index	160
Problems	171
11. Projective representations	174
Problems	194
12. Character degrees	198
Problems	216
13. Character correspondence	219
Problems	237
14. Linear groups	240
Problems	260
15. Changing the characteristic	262
Problems	285
Appendix Some character tables	287
Bibliographic notes	292
References	295
INDEX	297
