<i>Preface</i>	vii
<i>List of Plenary Speakers</i>	ix
<i>List of Participants</i>	xi
Fluctuation based proof of the stability of ac spectra of random operators on tree graphs MICHAEL AIZENMAN, ROBERT SIMS, and SIMONE WARZEL	1
The Borg-Marchenko Theorem with a Continuous Spectrum TUNCAY AKTOSUN and RICARDO WEDER	15
Sampling Theorems Associated With Differential Operators Iterated From Lower Order Ones M. H. ANNABY, G. FREILING, and I. A. SOLIMAN	31
Outgrowths of Hardy's Inequality WOLFGANG ARENDT, GISÈLE RUIZ GOLDSTEIN, and JEROME A. GOLDSTEIN	51
On Hardy type inequalities ALEXANDER A. BALINSKY and ALEXEY E. TYUKOV	69
A nonlinear fourth-order minimization problem RAFAEL D. BENGURIA	79
A variational approach to inverse problems for anisotropic systems B. M. BROWN, M. JAIS, and P. C. KALMBACH	87
On Self-adjoint and J -self-adjoint Dirac-type Operators: A Case Study STEVE CLARK and FRITZ GESZTESY	103
Necklaces with interacting beads: isoperimetric problems PAVEL EXNER	141
A Dirichlet-to-Neumann map approach to resonance gaps and bands of periodic networks COLIN FOX, VLADIMIR OLEINIK, and BORIS PAVLOV	151
Resonances and summation of divergent series G. GALLAVOTTI	171
Recent Results on Non-Adiabatic Transitions in Quantum Mechanics GEORGE A. HAGEDORN and ALAIN JOYE	183

Schrödinger Operators with Strong Magnetic Fields of Compact Support RAINER HEMPEL	199
Optimization of the minimum eigenvalue for a class of second order differential operators DON HINTON and MAEVE L. MCCARTHY	207
Time of Arrival in Quantum Mechanics and the Quantum Zeno Effect RICHARD LAVINE	227
Ground-State Energy of a Dilute Fermi Gas ELLIOTT H. LIEB, ROBERT SEIRINGER, and JAN PHILIP SOLOVEJ	239
The scattering relation and the Dirichlet-to-Neumann map LEONID PESTOV and GUNTHER UHLMANN	249
Recovering boundary conditions in inverse Sturm-Liouville problems NORBERT RÖHRL	263
Preservation of the absolutely continuous spectrum: some extensions of a result by Molchanov-Novitskii-Vainberg ALEXEI RYBKIN	271
Expansions associated with 1d periodic differential operators of order 4 VADIM TKACHENKO	283
Computed eigenmodes of planar regions LLOYD N. TREFETHEN and TIMO BETCKE	297
Geometric optics and the wave equation on manifolds with corners ANDRÁS VASY	315
