Preface	vii
Plenary Talks	ix
Workshops and Workshop Speakers	xi
Colloquium Participants	xiii
Uniformly exponential growth and mapping class groups of surfaces J. W. ANDERSON, J. ARAMOYONA, and K. J. SCHACKLETON	1
An A_1 weight not comparable with any quasiconformal Jacobian CHRISTOPHER J. BISHOP	7
Curvature, stretchiness, and dynamics MOON DUCHIN	19
Some special loci in the Siegel space of genus two CLIFFORD J. EARLE	31
Another approach to the automorphism theorem for Teichmüller spaces EGE FUJIKAWA	39
Energy of twisted harmonic maps of Riemann surfaces WILLIAM M. GOLDMAN and RICHARD A. WENTWORTH	45
Isometries of some hyperbolic-type path metrics, and the hyperbolic medial axis PETER HÄSTÖ, ZAIR IBRAGIMOV, DAVID MINDA, SAMINATHAN PONNUSAMY, and SWADESH SAHOO	63
From left earthquakes to right JUN HU	75
Small eigenvalues and maximal laminations on complete surfaces of negative curvature CHRISTOPHER M. JUDGE	93
A generalized hyperbolic metric for plane domains LINDA KEEN and NIKOLA LAKIC	107
Subgroups of mapping class groups from the geometrical viewpoint RICHARD P. KENT IV and CHRISTOPHER J. LEININGER	119
Determinants of Laplacians, quasifuchsian spaces, and holomorphic extensions of Laplacians YOUNG-HEON KIM	143

Hyperbolic and quasisymmetric structure of hyperspace LEONID V. KOVALEV and JEREMY T. TYSON	151
A classification of the modular transformations of infinite dimensional Teichmüller spaces KATSUHIKO MATSUZAKI	167
Random hyperbolic surfaces and measured laminations MARYAM MIRZAKHANI	179
Extensions of holomorphic motions to quasiconformal motions SUDEB MITRA	199
Analyst's Traveling Salesman Theorems. A Survey RAANAN SHUL	209
Energy of harmonic maps and Gardiner's formula RICHARD A. WENTWORTH	221
