

## Contents

Preface	vii
Differential Galois theory of algebraic Lie-Vessiot systems D. BLÁZQUEZ-SANZ and J. J. MORALES-RUIZ	1
Recent trends on two variable orthogonal polynomials L. FERNÁNDEZ, F. MARCELLÁN, T. E. PÉREZ, and M. A. PIÑAR	59
On the integrability of the Riccati equation C. A. GOMEZ S.	87
Two discrete systems of $q$ -orthogonal polynomials M. E. H. ISMAIL	95
Like-hyperbolic Bloch-Bergman classes J. ŁAWRYNOWICZ, L. F. RESÉNDIS O., and L. M. TOVAR S.	103
Some words about the application of Tchebycheff systems to Weak Hilbert's 16th Problem J. TOMÁS LÁZARO	119
From the index of a differential operator to the Milnor number of a singularity D. MOND	129
Integrability of dynamical systems through differential Galois theory: A practical guide J. J. MORALES-RUIZ and J.-P. RAMIS	143
Tournaments and parabolic almost complex structures on flag manifolds M. PAREDES and S. PINZÓN	221
