<b>Survey Article</b>	
The homotopy theory of function spaces: A survey S. B. SMITH	3
<b>Contributed Articles</b>	
Upper bounds for the Whitehead-length of mapping spaces U. BUIJS	43
String topology of classifying spaces and gravity algebras D. CHATAUR	55
A fibrewise stable splitting and free loops on projective spaces M. C. CRABB	67
Rational homotopy of symmetric products and spaces of finite subsets Y. FÉLIX and D. TANRÉ	77
Derivations, Hochschild cohomology and the Gottlieb group J.-B. GATSINZI	93
Rational homotopy groups of function spaces J.-B. GATSINZI and R. KWASHIRA	105
Formality of the framed little 2-discs operad and semidirect products J. GIANSIRACUSA and P. SALVATORE	115
James construction, Fox torus homotopy groups, and Hopf invariants M. GOLASIŃSKI, D. GONÇALVES, and P. WONG	123
Notes on the triviality of adjoint bundles A. KONO and S. TSUKUDA	133
Spaces of algebraic maps from real projective spaces into complex projective spaces A. KOZŁOWSKI and K. YAMAGUCHI	145

On the rational cohomology of the total space of the universal fibration with an elliptic fibre	
K. KURIBAYASHI	165
On the realizability of Gottlieb groups	
J. OPREA and J. STROM	181
Localization of grouplike function and section spaces with compact domain	
C. L. SCHOCHET and S. B. SMITH	189
Non-integral central extensions of loop groups	
C. WOCKEL	203
 <b>Problem List</b>	
Problems on mapping spaces and related subjects	
Y. FÉLIX	217
