

Contents

Jairo Charris. The mathematician. The seminar	vii
Preface	ix
A reduction method for higher order variational equations of Hamiltonian systems	
A. APARICIO MONFORTE and J.-A. WEIL	1
A survey on integration of parabolic equations by reducing them to the heat equation	
N.H. IBRAGIMOV	17
Weil jets, Lie correspondences and applications	
S. JIMÉNEZ	25
Some applications of summability: An illustrated survey	
J. MOZO-FERNÁNDEZ	51
The structure of time and inertial forces in Lagrangian mechanics	
J. MUÑOZ DÍAZ	65
Differential invariant algebras	
P. J. OLVER	95
The Stokes phenomenon for linear q -difference equations	
J. SAULOY	123
Finite Hamiltonian systems on phase space	
K. B. WOLF	141
