

**Contents**  
**II: Complex Analysis, Quasiconformal Mappings,  
 Complex Dynamics**

Preface	ix
David Shoikhet at Sixty	
MARK L. AGRANOVSKY, MARK ELIN, and LAWRENCE ZALCMAN	xi
Bibliography of David Shoikhet	xv
Conference Program	xxiii
List of Participants	xxix
Common Boundary Regular Fixed Points for Holomorphic Semigroups in Strongly Convex Domains	
M. ABATE and F. BRACCI	1
Univalence Criteria Depending on Parameters and Applications	
D. AHARONOV and U. ELIAS	15
Hausdorff Operators in Hardy Spaces on Cartan Type Domains in $\mathbb{C}^n$	
L. AIZENBERG, E. LIFLYAND, and A. VIDRAS	27
On the Expansive Property of Inner Functions in Weighted Hardy Spaces	
J. A. BALL and V. BOLOTNIKOV	47
Chordal Loewner Equation	
A. DEL MONACO and P. GUMENYUK	63
On a Lemma of Bergweiler	
P. C. FENTON	79
Normal Families of Discrete Open Mappings with Controlled $p$ -Module	
A. GOLBERG, R. SALIMOV, and E. SEVOST'YANOV	83
Balls in the Triangular Ratio Metric	
S. HOKUNI, R. KLÉN, Y. LI, and M. VUORINEN	105
Examples of Reconstruction of Homogeneous Isolated Hypersurface Singularities from Their Milnor Algebras	
A. V. ISAEV	125
On Summation of the Taylor Series of the Function $1/(1 - z)$ by the Theta Summation Method	
V. KATSNELSON	141

Strengthened Grunsky and Milin Inequalities S. L. KRUSHKAL	159
Quasiconformal Mappings with Replaced Dilatation R. KÜHNAU	181
Universality Limits Involving Orthogonal Polynomials on a Smooth Closed Contour E. LEVIN and D. S. LUBINSKY	187
Hele-Shaw Flow with a Time-Dependent Gap: The Schwarz Function Approach to the Interior Problem K. MALAIKAH, T. V. SAVINA, and A. A. NEPOMNYASHCHY	199
A Jordan Approach to Iteration Theory for Bounded Symmetric Domains P. MELLON	211
Extreme Points Method and Univalent Harmonic Mappings Y. A. MUHANNA and S. PONNUSAMY	223
A Weak Ergodic Theorem for Infinite Products of Holomorphic Mappings S. REICH and A. J. ZASLAVSKI	239
Circle Packing and Interpolation in Fock Spaces D. STEVENSON and K. ZHU	247
Briançon-Skoda Theorem for a Quotient Ring A. VIDRAS and A. YGER	253
A Survey on Quasiconformal Functions with Application to the Case of Functions of a Hypercomplex Variable F. VLACCI	279
On the Riemann-Hilbert Problem for the Beltrami Equations A. YEFIMUSHKIN and V. RYAZANOV	299
