

Contents

Preface	vii
Oxtoby Centennial Conference, speakers and participants	ix
Williams Ergodic Theory Conference, speakers and participants	xiii
AMS Special Session on Ergodic Theory and Symbolic Dynamics, speakers	xv
Conjugacy in the Cantor set automorphism group ETHAN AKIN	1
The mathematical work of John C. Oxtoby STEVE ALPERN, JOSEPH AUSLANDER, and CESAR E. SILVA	43
The Čech cohomology and the spectrum for 1-dimensional tiling systems TETYANA I. ANDRESS and E. ARTHUR ROBINSON, JR.	53
Markov diagrams for some non-Markovian systems KATHLEEN CARROLL and KARL PETERSEN	73
Contractive spaces and relatively contractive maps DARREN CREUTZ	103
Mandelpinski structures in the parameter planes of rational maps ROBERT L. DEVANEY	133
Substitutions and Möbius disjointness S. FERENCZI, J. KUŁAGA-PRZYMUS, M. LEMAŃCZYK, and C. MAUDUIT	151
Subshifts with slowly growing numbers of follower sets THOMAS FRENCH, NIC ORMES, and RONNIE PAVLOV	175
Haar measures and Hausdorff dimensions of p -adic Julia sets JOANNA FURNO	187
Lebesgue measure theoretic dynamics of rational maps JANE HAWKINS	197
The inverse problem for canonically bounded rank-one transformations AARON HILL	219
Higher dimensional shift spaces with shear STEVE KASS and KATHLEEN MADDEN	231

Hereditary subshifts whose simplex of invariant measures is Poulsen JOANNA KUŁAGA-PRZYMUS, MARIUSZ LEMAŃCZYK, and BENJAMIN WEISS	245
Substitutions, symbolic codings, and discrepancy DAVID RALSTON	255
Nearly continuous even Kakutani equivalence of nearly continuously rank-one transformations BETHANY D. SPRINGER	277
Dynamics of self-similar interval exchange transformations on three intervals KELLY YANCEY	297
