

Contents

Preface	vii
Acknowledgments	ix
Moonshine and the meaning of life YANG-HUI HE and JOHN MCKAY	1
The Monster is fabulous SIMON P. NORTON	3
Majorana representation of the Monster group A. A. IVANOV	11
Letter to Donna Testerman JEAN-PIERRE SERRE	19
Reliability and reproducibility of Atlas information THOMAS BREUER, GUNTER MALLE, and E. A. O'BRIEN	21
Characters and Brauer trees of the covering group of ${}^2E_6(2)$ FRANK LÜBECK	33
Maximal subgroups of sporadic groups ROBERT A. WILSON	57
Construction of the Thompson Chain of subgroups of the Conway group $\cdot O$ and complete graphs on n letters R. T. CURTIS	73
Conway's groupoid and its relatives NICK GILL, NEIL I. GILLESPIE, CHERYL E. PRAEGER, and JASON SEMERARO	91
The subgroup structure of finite groups MICHAEL ASCHBACHER	111
Some remarks on maximal subgroups of finite classical groups KAY MAGAARD	123
Toward a classification of endotrivial modules JON F. CARLSON	139
Some remarks on global/local conjectures GABRIEL NAVARRO	151

Minuscule weights and Chevalley groups MEINOLF GECK	159
A method for building permutation representations of finitely presented groups GABRIELE NEBE, RICHARD PARKER, and SARAH REES	177
Character ratios for finite groups of Lie type, and applications MARTIN W. LIEBECK	193
Conjugacy classes, growth and complexity ANER SHALEV	209
Permutation groups where non-trivial elements have few fixed points REBECCA WALDECKER	223
