

## Contents

Preface	vii
Conference Program	ix
List of Participants	xv
Accuracy of reconstruction of spike-trains with two near-colliding nodes A. AKINSHIN, G. GOLDMAN, V. GOLUBYATNIKOV, and Y. YOMDIN	1
Exact solutions to a Muskat problem with line distributions of sinks and sources L. AKINYEMI, T. V. SAVINA, and A. A. NEPOMNYASHCHY	19
Modulus of families of walks on graphs N. ALBIN, F. DARABI SAHNEH, M. GOERING, and P. POGGI-CORRADINI	35
Uniqueness of contact Hamiltonians of topological strictly contact isotopies A. BANYAGA and P. SPAETH	57
A triple principle (for curves, surfaces and complex functions) and the universal version of value distribution theory G. BARSEGHIAN	67
Characterization of orthogonal polynomials—A new proof of Bochner’s theorem R. DÍAZ MILLÁN and A. GIBALI	87
Decomposition of the Kostlan–Shub–Smale model for random polynomials V. GICHEV	103
Differentiability of ring homeomorphisms with controlled $p$ -module A. GOLBERG and R. SALIMOV	121
Some inequalities for holomorphic self-maps of the unit disc with two fixed points V. V. GORYAINOV	129
Interpolation and cubature at Geronimus nodes generated by different Geronimus polynomials L. A. HARRIS	137
Characterizations to the fractional Sobolev inequality R. HURRI-SYRJÄNEN and A. V. VÄHÄKANGAS	145

Elliptic perturbations of dynamical systems with a proper node L. A. KALYAKIN, O. A. SULTANOV, and N. TARKHANOV	155
Krull dimensions of rings of holomorphic functions M. KAPOVICH	167
Complex geodesics and variational calculus for univalent functions S. L. KRUSHKAL	175
Analytic reflection across analytic Jordan curves R. KÜHNAU	199
Compositions of polyharmonic mappings G. LIU and S. PONNUSAMY	209
On Marcinkiewicz-Zygmund inequalities at Jacobi zeros and their Bessel function cousins D. S. LUBINSKY	223
Nonminimal cyclic invariant subspaces of hyperbolic composition operators V. MATACHE	247
An improved defect relation for holomorphic curves in projective varieties C. MILLS and M. RU	263
A porosity theorem for a class of nonexpansive set-valued mappings S. REICH and A. J. ZASLAVSKI	275
The Khavinson-Shapiro conjecture for domains with a boundary consisting of algebraic hypersurfaces H. RENDER	283
Shadow problem for the tangent bundle of straight lines on a sphere YU. B. ZELINSKII	291
