

Contents

Preface	vii
Characteristic functions of p -adic integral operators PAVEL ETINGOF and DAVID KAZHDAN	1
Shuffle algebras, lattice paths and the commuting scheme ALEXANDR GARBALI and PAUL ZINN-JUSTIN	29
The bar involution for quantum symmetric pairs - hidden in plain sight STEFAN KOLB	69
Charting the q -Askey scheme TOM H. KOORNWINDER	79
Filtered deformations of elliptic algebras ERIC M. RAINS	95
Pseudo-symmetric pairs for Kac-Moody algebras VIDAS REGELSKIS and BART VLAAR	155
Asymptotic boundary KZB operators and quantum Calogero-Moser spin chains NICOLAI RESHETIKHIN and JASPER STOKMAN	205
Elementary symmetric polynomials and martingales for Heckman-Opdam processes MARGIT RÖSLER and MICHAEL VOIT	243
Conformal Hypergeometry and Integrability VOLKER SCHOMERUS	263
Determinant of \mathbb{F}_p -hypergeometric solutions under ample reduction ALEXANDER VARCHENKO	287
Notes on solutions of KZ equations modulo p^s and p -adic limit $s \rightarrow \infty$ (with an appendix by Steven Sperber and Alexander Varchenko) ALEXANDER VARCHENKO	309
