

# Contents

Preface .....	ix
1 Polygon Basics .....	1
1.1 Introduction .....	1
1.2 Polygon preliminaries .....	2
1.3 Diagonals of convex polygons .....	5
1.4 Regular polygons .....	7
1.5 Drawing regular polygons and the Gauss-Wantzel theorem .....	14
1.6 Star polygons .....	16
1.7 Polygonal tiling .....	19
1.8 Voronoi diagrams and dual tilings .....	23
1.9 Challenges .....	25
2 Pentagons .....	29
2.1 Introduction .....	29
2.2 Regular pentagons .....	30
2.3 Drawing a regular pentagon .....	35
2.4 Folding a regular pentagon .....	38
2.5 Six types of general convex pentagons .....	39
2.6 Pentagonal tilings .....	43
2.7 Pentagrams .....	48
2.8 Pentagons in space .....	52
2.9 Miscellaneous examples .....	54
2.10 Pentagons in architecture .....	56
2.11 Challenges .....	57

3	Hexagons .....	61
3.1	Introduction .....	61
3.2	Regular hexagons .....	63
3.3	Cyclic hexagons .....	71
3.4	Hexagonal tilings .....	75
3.5	Parahexagons .....	77
3.6	The carpenter's square .....	81
3.7	L-polyominoes .....	82
3.8	Hexagrams .....	86
3.9	Miscellaneous examples .....	90
3.10	Hexagons in architecture .....	95
3.11	Challenges .....	97
4	Heptagons .....	103
4.1	Introduction .....	103
4.2	Regular heptagons .....	105
4.3	The diagonals of a regular heptagon .....	105
4.4	The heptagonal triangle .....	107
4.5	Drawing a regular heptagon .....	109
4.6	A neusis construction .....	112
4.7	Heptagonal tilings .....	114
4.8	Star heptagons .....	115
4.9	Heptagons in architecture .....	116
4.10	Challenges .....	118
5	Octagons .....	121
5.1	Introduction .....	121
5.2	Regular octagons .....	122
5.3	General convex octagons .....	128
5.4	Star octagons .....	131
5.5	Octagons in space .....	133
5.6	Octagons in architecture .....	134

5.7	Challenges	137
6	Many-sided Polygons	141
6.1	Introduction	141
6.2	Nonagons	143
6.3	Decagons	148
6.4	Hendecagons	153
6.5	Dodecagons	155
6.6	Gauss and heptadecagons	161
6.7	Archimedes and 24-, 48-, and 96-gons	162
6.8	The 257-gons and the 65537-gons	166
6.9	Miscellaneous many-sided polygons	167
6.10	Challenges	170
7	Miscellaneous Classes of Polygons	175
7.1	Introduction	175
7.2	Lattice polygons	175
7.3	Rectilinear polygons	181
7.4	Zonogons	183
7.5	Cyclic polygons	186
7.6	Tangential polygons	190
7.7	Bicentric polygons	194
7.8	Challenges	195
8	Polygonal Numbers	197
8.1	Introduction	197
8.2	Ordinary polygonal numbers	200
8.3	Centered polygonal numbers	205
8.4	Other figurate numbers derived from polygons	207
8.5	Challenges	209

Solutions to the Challenges .....	213
Chapter 1 .....	213
Chapter 2 .....	215
Chapter 3 .....	219
Chapter 4 .....	226
Chapter 5 .....	230
Chapter 6 .....	234
Chapter 7 .....	240
Chapter 8 .....	242
Credits and Permissions .....	247
Bibliography .....	253
Index .....	261
