

## Contents

<b>Acknowledgments</b>	vii
<b>Introduction</b>	ix
<b>List of Participants</b>	xiii
<b>Schedule of Workshops</b>	xv
<b>Aspects of Arithmetic and Modular Forms</b>	
Motives and Mirror Symmetry for Calabi–Yau Orbifolds SHABNAM KADIR and NORIKO YUI	3
String Modular Motives of Mirrors of Rigid Calabi–Yau Varieties SAVAN KHAREL, MONIKA LYNKER and ROLF SCHIMMRIGK	47
Update on Modular Non-Rigid Calabi–Yau Threefolds EDWARD LEE	65
Finite Index Subgroups of the Modular Group and Their Modular Forms LING LONG	83
<b>Aspects of Geometric and Differential Equations</b>	
Apéry Limits of Differential Equations of Order 4 and 5 GERT ALMKVIST, DUCO VAN STRATEN and WADIM ZUDILIN	105
Hypergeometric Systems in Two Variables, Quivers, Dimers and Dessins d’Enfants JAN STIENSTRA	125
Some Properties of Hypergeometric Series Associated with Mirror Symmetry DON ZAGIER and ALEKSEY ZINGER	163
Ramanujan-Type Formulae for $1/\pi$ : A Second Wind? WADIM ZUDILIN	179

**Aspects of Physics and String Theory**

Meet Homological Mirror Symmetry MATTHEW ROBERT BALLARD	191
Orbifold Gromov–Witten Invariants and Topological Strings VINCENT BOUCHARD	225
Conformal Field Theory and Mapping Class Groups TERRY GANNON	247
$SL(2, \mathbb{C})$ Chern–Simons Theory and the Asymptotic Behavior of the Colored Jones Polynomial SERGEI GUKOV and HITOSHI MURAKAMI	261
Open Strings and Extended Mirror Symmetry JOHANNES WALCHER	279
