- Central Limit Theorem, 63, 78, 151, 159, 161, 231, 236
- change of variables formula, 270
- characteristic function, 63, 292
- Chebyshev's Inequality, 159
- claim, 86, 182, 184, 212
- closed interval, 62
- commission, 14, 166
- complement, 41
- complete probability measure, 224

- completing squares, 207, 221
 completion of a probability space, 104
 compound interest, 4
 conditional expectation, 10, 115, 128, 169, 170, 172, 175, 176, 181, 222
 conditional probability, 94
 confidence interval, 160
 continuous function, 71, 152, 204
 continuous path, 184
 continuous-time filtration, 55
 continuous-time martingale, 220
 continuous-time process, 103
 continuously compounded interest, 6
 continuously differentiable function, 10, 251
 convergence in \mathbf{L}^1 , 215, 248
 convergence in \mathbf{L}^2 , 248
 convergence in distribution, 127, 162, 250
 convergence in measure, 251
 convergence in probability, 127, 246, 250, 258
 convergent sequence of real numbers, 37, 60, 69, 214, 246
 convergent sequence of sets, 80
 convergent series, 79, 109, 152
 convex function, 146
 convolution, 207
 countable partition, 48, 68, 95, 172, 203
 countable range, 68, 109, 141
 countable set, 35, 62
 counting, 110, 205
 cross sections, 197
 cycle, 216

 De Morgan's Laws, 43, 128, 194
 decimal expansion, 34, 36
 decreasing sequence of sets, 80
 dense set, 40, 216
 density, 205, 222
 density function, 205, 237, 240, 245
 derivative, 13, 14
 deterministic variable, 245
 diagonal process, 36
 differential equation, 10
 discounted option price, 181
 discounted share price, 84, 181
 discounting, 8, 169
 discrete-time filtration, 54, 168
 discrete-time martingale, 210, 221
 discrete-time process, 103
 distance, 118

 distribution function, 161, 205, 245, 250
 dividends, 13
 Dominated Convergence Theorem, 137, 203, 218, 247, 262
 Doob Decomposition Theorem, 296
 Doob-Kolmogorov Inequality, 225
 drift, 229, 234

 effective rate of interest, 3
 empty set, 41
 equally likely outcomes, 19, 80
 equivalence class, 49, 127
 equivalence relationship, 48, 66
 European Option, 83
 event, 42, 52, 174, 177
 exercise date, 83
 exercise price, 83
 expectation, 171
 expected value, 40, 78, 83, 107, 110, 158, 169, 206, 222
 expected winnings, 19
 experiment, 40, 52, 78, 96, 110
 exponential Brownian motion, 233
 exponential function, 7, 235
 exponential random variable, 206

 fair game, 18, 78, 83, 216
 fair game principle, 165, 168, 183
 fair price, 84, 235
 Fatou's Lemma, 132, 137, 217, 250
 favorable game, 213
 Feymann-Kac Formula, 279
 field, 41
 filtered probability space, 210
 filtration, 103, 168, 181, 210, 251, 253
 financial instrument, 12
 finer partition, 52
 finite partition, 110
 finite range, 66, 110
 flotation, 13, 103
 forward contract, 83
 Fubini's Theorem, 197, 254, 255
 Fundamental Theorem of Calculus, 10, 176, 205, 245, 265
 Fundamental Theorem of Stochastic Calculus, 270
 future, 3, 198, 229
 futures contract, 83

 game, 18, 216
