### Books by Emil Artin

<i>The Gamma Function</i>	13
<i>Galois Theory</i>	61
<i>Theory of Algebraic Numbers</i>	109

### Papers by Emil Artin

Axiomatic Characterization of Fields by the Product Formula for Valuations (with George Whaples)	241
A Note on Axiomatic Characterization of Fields (with George Whaples)	265
A Characterization of the Field of Real Algebraic Numbers (Kennzeichnung der Körper der reellen algebraischen Zahlen)	269
The Algebraic Construction of Real Fields (Algebraische Konstruktion reeller Körper)(with Otto Schreier)	273
A Characterization of Real Closed Fields (Kennzeichnung der reell abgeschlossen Körper)(with Otto Schreier)	285
The Theory of Braids	291
Theory of Braids	299
On the Theory of Complex Functions	325
A Proof of the Krein-Milman Theorem	335
The Influence of J.H.M. Wedderburn on the Development of Modern Algebra	339
