Preface	vii
Languages	ix
Acknowledgements	x
Chapter 1. Algebra at the Beginning of the Twentieth Century	1
1.1. A changing discipline	1
1.2. The term ‘semigroup’	3
1.3. An overview of the development of semigroup theory	7
Chapter 2. Communication between East and West	11
2.1. Communication down through the decades	14
2.2. Access to publications	29
Chapter 3. Anton Kazimirovich Sushkevich	45
3.1. Biography	47
3.2. <i>The theory of operations as the general theory of groups</i>	54
3.3. Generalised groups	58
3.4. Sushkevich’s impact	73
Chapter 4. Unique Factorisation in Semigroups	77
4.1. Postulational analysis	81
4.2. E. T. Bell and the arithmetisation of algebra	83
4.3. Morgan Ward and the foundations of general arithmetic	88
4.4. Alfred H. Clifford	91
4.5. Arithmetic of ova	93
4.6. Subsequent developments	103
Chapter 5. Embedding Semigroups in Groups	107
5.1. The theorems of Steinitz and Ore	111
5.2. Embedding according to Sushkevich	116
5.3. Further sufficient conditions	122
5.4. Maltsev’s immersibility conditions	124
5.5. Other embedding problems	133
Chapter 6. The Rees Theorem	135
6.1. Completely (0-)simple semigroups	137
6.2. Brandt groupoids	140
6.3. Sushkevich’s ‘Kerngruppen’	145
6.4. Clifford’s ‘multiple groups’	149
6.5. The Rees Theorem	151
6.6. Unions of groups and semigroups	156

Chapter 7. The French School of ‘Demi-groupes’	161
7.1. Paul Dubreil and Marie-Louise Dubreil-Jacotin	164
7.2. Equivalence relations	166
7.3. Principal equivalences and related concepts	171
7.4. Subsequent work	177
Chapter 8. The Expansion of the Theory in the 1940s and 1950s	183
8.1. The growth of national schools	184
8.2. The Slovak school	186
8.3. The American school	192
8.4. The Japanese school	201
8.5. The Hungarian school	206
8.6. British authors	208
Chapter 9. The Post-Sushkevich Soviet School	217
9.1. Evgenii Sergeevich Lyapin	220
9.2. Lyapin’s mathematical work	225
9.3. Lazar Matveevich Gluskin	238
9.4. Gluskin’s mathematical work	239
9.5. Other authors	246
Chapter 10. The Development of Inverse Semigroups	249
10.1. A little theory	251
10.2. Pseudogroups and conceptual difficulties	252
10.3. Viktor Vladimirovich Wagner	258
10.4. Wagner and generalised groups	259
10.5. Gordon B. Preston	268
10.6. Preston and inverse semigroups	269
Chapter 11. Matrix Representations of Semigroups	277
11.1. Sushkevich on matrix semigroups	281
11.2. Clifford on matrix semigroups	285
11.3. W. Douglas Munn	289
11.4. The work of W. D. Munn	291
11.5. The work of J. S. Ponizovskii	298
Chapter 12. Books, Seminars, Conferences, and Journals	303
12.1. Monographs	305
12.2. Seminars on semigroups	323
12.3. Czechoslovakia, 1968, and <i>Semigroup Forum</i>	326
Appendix. Basic Theory	333
Notes	337
Bibliography	373
Name Index	429
Subject Index	433
