Foreword	xi
Acknowledgments	xv
Part I. Berkeley Math Circle	1
Introduction: Berkeley 2009	3
Lesson 1	5
Drawing links and knots	5
At the lesson	10
Lesson 2	11
Mysterious pictures	11
Secret code	12
At the lesson	15
Answers	16
Lesson 3	17
Two logic problems	17
About fractals and the powers of numbers	18
Sierpinski triangle	22
Fractal snowflake	24
At the lesson	25
Answers	26
Lesson 4	29
Squares and squares of numbers	29
Cubes and cubes of numbers	30
Homonyms and definitions in mathematics	30
Random Maze	32
At the lesson	34
Answers	35
Lesson 5	37
Pascal's triangle	37
Divisibility criterion by 3	38
Problems with matchsticks	40
Difficult situation	41
At the lesson	42

Answers	43
Lesson 6	45
Weekend	45
About sausages	45
Flower pots	46
Magic triangle	46
An experiment with a triangle (The sum of angles in a triangle is 180°)	46
An experiment with a quadrilateral (The sum of angles in a convex quadrilateral is equal to 360°)	47
At the lesson	49
Answers	51
Lesson 7	53
The game “Points on a circle”	53
Three puzzles	54
At the lesson	56
Answers	57
Lesson 8	59
Two short problems	59
Mysterious pictures	60
Arithmetic operations	61
Tropical arithmetic	62
At the lesson	63
Answers	64
Lesson 9	67
Beehive and clock	67
Pizza	67
No-glue paper chain	69
Logic game “A not A”	69
At the lesson	70
Answers	71
Lesson 10	73
Negations	73
Yes and No	76
About the game 20Q	78
At the lesson	79
Answers	81
Lesson 11	83
Problems about guests	83
The Treasure Island	84
River Crossing problems	85
At the lesson	86

Answers	87
Lesson 12	89
Knights and a dragon	89
One mirror	89
Two mirrors	90
Old lady in the mirrors	93
Kaleidoscope	93
Symmetry	96
At the lesson	98
Answers	100
Lesson 13	101
Pets	101
Gnomes	101
Silent cooperation	103
Random choice with equally likely outcomes	104
How to choose something absolutely randomly	104
At the lesson	106
Answers	108
Lesson 14	111
Christmas problems	111
At the lesson	117
Answers	118
Lesson 15	119
Boys and girls	119
Race	122
At the lesson	123
Answers	124
Part II. Manhattan Math Circle Seminar	125
Introduction: Manhattan 2011	127
M.1. Counting rhymes	129
M.2. Arithmetic	133
M.3. More coded pictures	137
M.4. Make your own problem	141
M.5. Cut the square	143
M.6. Siege of the fortress	147
M.7. More logic problems	149
M.8. Estimates	151

M.9. Problems with unknowns	153
M.10. Knots, links, and paths	155
M.11. How old are you?	159
M.12. No solutions	161
M.13. The Pigeon Hole Principle	165
