Preface to the English Translation	v
Introduction	1
Lecture 1. The Statistics of Topology and Algebra	3
§1. Hilbert's Sixteenth Problem	4
§2. The Statistics of Smooth Functions	20
§3. Statistics and the Topology of Periodic Functions and Trigonometric Polynomials	35
§4. Algebraic Geometry of Trigonometric Polynomials	46
Editor's notes	55
Lecture 2. Combinatorial Complexity and Randomness	59
§1. Binary Sequences	60
§2. Graph of the Operation of Taking Differences	64
§3. Logarithmic Functions and Their Complexity	69
§4. Complexity and Randomness of Tables of Galois Fields	74
Editor's notes	79
