Global Regularity for 2D Water Waves with Surface Tension

- Introduction
- Preliminaries
- Derivation of the main scalar equation
- Energy estimates I: high Sobolev estimates
- Energy estimates II: low frequencies
- Energy estimates III: weighted estimates for high frequencies
- Energy estimates IV: weighted estimates for low frequencies
- Decay estimates
- Proof of Lemma 8.6
- Modified scattering
- Appendix A. Analysis of symbols
- Appendix B. The Dirichlet-Neumann operator
- Appendix C. Elliptic bounds
- Bibliography
