

# Contents

Chapter 1. Introduction and Results	1
1.1. Introduction	1
1.2. Statement of results	6
1.3. Plan of the work and comments on the proof of Theorem 1.3	9
Chapter 2. Preliminaries	15
Chapter 3. Lyapunov exponents and Lyapunov regularity functions	19
Chapter 4. Non-integrability of contact Anosov flows	27
4.1. Choice of constants, sets of Lyapunov regular points	27
4.2. Non-integrability	28
4.3. Regular distortion of cylinders	31
Chapter 5. Main estimates for temporal distances	33
5.1. Normalized Ruelle operators and the metric $D_\theta$	33
5.2. First step – using Lemmas 4.2 and 4.3	36
5.3. Main estimates for temporal distances	38
Chapter 6. Contraction operators	41
6.1. Choice of cylinders, definition of the contraction operators	41
6.2. Main properties of the contraction operators	45
6.3. Return times estimates	50
6.4. Estimates of $L_{ab}^N$ by contraction operators	53
Chapter 7. $L^1$ contraction estimates	59
Chapter 8. Proofs of the main results	69
Chapter 9. Temporal distance estimates on cylinders	79
9.1. A technical lemma	79
9.2. Proof of Lemma 4.2	80
9.3. Proof of Lemma 4.3	87
Chapter 10. Regular distortion for Anosov flows	93
10.1. Expansion along $E_1^u$	93
10.2. Linearization along $E_1^u$	100
10.3. Consequences for cylinders in Markov partitions	106
Appendix A. Proofs of some technical lemmas	109
Bibliography	111

Index	117
List of Symbols	119
