

# Contents

Chapter 1. Introduction	1
Acknowledgments	6
Notation	6
Chapter 2. Preliminaries	9
Chapter 3. Families of standard determinantal schemes	13
Chapter 4. Unobstructedness of quotients of zerosections	21
Chapter 5. Deformation of minors	33
Chapter 6. The dimension of the determinantal locus	43
Chapter 7. Generically smooth components of the Hilbert scheme	61
Chapter 8. Computing dimensions by deleting columns	73
Chapter 9. Deformations of exterior powers of modules over determinantal schemes	91
Chapter 10. Final comments and conjectures	97
Appendix A. Appendix	101
Bibliography	111
