

Contents

Chapter 1. Introduction	1
Acknowledgment	3
Chapter 2. Notation and previous work from part I	5
2.1. Notation	5
2.2. The system	7
2.3. Previous result	8
Chapter 3. Main results and discussion	11
3.1. Results	11
3.2. Discussion	16
Chapter 4. Identities and equations from previous work	19
4.1. Main identities	19
4.2. Quasilinear equations	20
4.3. Previous a priori estimate	22
Chapter 5. Higher order energy \mathcal{E}_{high}	25
5.1. Quasilinear equation	26
5.2. Quantities controlled by the energy E_{high}	27
5.3. Closing the energy estimate for E_{high}	33
5.4. Equivalence of E_{high} and \mathcal{E}_{high}	34
Chapter 6. Auxiliary energy \mathcal{E}_{aux}	37
6.1. Quasilinear equation	38
6.2. Quantities controlled by the energy λE_{aux}	39
6.3. Closing the energy estimate for λE_{aux}	62
6.4. Equivalence of λE_{aux} and $\lambda \mathcal{E}_{aux}$	64
Chapter 7. The energy \mathcal{E}_Δ	67
7.1. Quantities controlled by E_Δ	73
7.2. Closing the energy estimate for E_Δ	87
7.3. Equivalence of E_Δ and \mathcal{E}_Δ	96
Chapter 8. Proof of Theorem 3.1.1 and Corollary 3.1.2	103

Chapter 9. Appendix A	111
Chapter 10. Appendix B	115
Bibliography	123
