

# Contents

Chapter 1. Introduction	1
1.1. Review on deterministic LQs in finite dimensions and matrix-valued Riccati equations	1
1.2. Review on SLQs in finite dimensions	3
1.3. SLQs in infinite dimensions	8
Chapter 2. Statement of the main results	13
Chapter 3. Some preliminary results	25
3.1. Well-posedness for some vector-valued SEEs and BSEEs	25
3.2. Some operator-valued SEEs and BSEEs	42
3.3. An auxiliary controllability result	54
3.4. Sequential Banach-Alaoglu-Type theorems in the operator version	56
3.5. Preliminary on Malliavin Calculus	57
Chapter 4. Proof of the first main result	59
Chapter 5. Proof of the second main result	61
Chapter 6. Existence of transposition solutions to some operator-valued BSREs	87
Chapter 7. Some examples of controlled SPDEs	95
7.1. SLQs for stochastic wave equations	95
7.2. SLQ for stochastic parabolic equations	97
7.3. SLQs for stochastic Schrödinger equations	99
Bibliography	103
