Introduction	1
Chapter 1. Description of results	1
1.1. Setting and notation	1
1.2. The degeneracy module correspondences	2
1.3. The structure of reflexive modules via the degeneracy module correspondences	3
1.4. The classification of reflexive modules	5
1.5. Deformations and families	6
1.6. The correspondences as isomorphisms of deformation functors	6
1.7. Moduli spaces of reflexive modules, Cohen-Macaulay representation types	9
Chapter 2. Reflexive modules and full sheaves	11
2.1. Cohen-Macaulay modules and reflexive modules	11
2.2. Full sheaves	12
Chapter 3. Enhancing the Chern class and the degeneracy modules correspondences	15
3.1. Degeneracy modules of vector bundles	15
3.2. Cohen-Macaulay modules of dimension 1	18
3.3. The correspondence on the Stein surface	20
3.4. The correspondence on the resolution	22
3.5. A comparison of correspondences	31
Chapter 4. The minimal adapted resolution	35
4.1. The behaviour of the specialty defect and minimal adapted resolutions of special modules	38
4.2. The decomposition in indecomposables and the irreducible components of the degeneracy locus	42
Chapter 5. The cohomology of full sheaves on normal Stein surfaces with Gorenstein singularities	45
Chapter 6. The classification and structure of special reflexive modules	51
6.1. The combinatorial classification	51
6.2. The first Chern class of a module in its minimal adapted resolution	52
6.3. The classification of special reflexive modules on Gorenstein surface singularities	54

Chapter 7. Deformations of reflexive modules and full sheaves	59
7.1. The deformation functors	59
7.2. The correspondence for deformations of families of normal Stein surfaces with Gorenstein singularities	64
7.3. The correspondence for deformations of simultaneous resolutions of families of normal Stein Surfaces with Gorenstein singularities	67
Chapter 8. Classification of Gorenstein normal surface singularities in Cohen-Macaulay representation types	75
Chapter 9. Lifting deformations	79
9.1. Sufficient conditions for liftability to full deformations	82
Chapter 10. Moduli spaces of special reflexive sheaves on Gorenstein surface singularities	87
Bibliography	93
