

Contents

Introduction to <i>Modeling and Simulation of Biological Networks</i>	vii
An introduction to reconstructing ancestral genomes LIOR PACHTER	1
Phylogenetics ELIZABETH S. ALLMAN AND JOHN A. RHODES	21
Polynomial dynamical systems in systems biology BRANDILYN STIGLER	53
An introduction to optimal control applied to immunology problems SUZANNE LENHART AND JOHN T. WORKMAN	85
Modeling and simulation of large biological, information and socio-technical systems: An interaction-based approach CHRISTOPHER L. BARRETT, KEITH BISSET, STEPHEN EUBANK, MADHAV V. MARATHE, V. S. ANIL KUMAR, AND HENNING S. MORTVEIT	101
