

## Contents

Preface	vii
List of Participants	xi
<b>Plenary talks:</b>	
Refined Chern-Simons theory and knot homology M. AGANAGIC and S. SHAKIROV	3
Elusive worldsheet instantons in heterotic string compactifications P. ASPINWALL and R. PLESSER	33
The largest Mathieu group and (mock) automorphic forms M. CHENG and J. DUNCAN	53
(0,2) quantum cohomology R. DONAGI, J. GUFFIN, S. KATZ, and E. SHARPE	83
Foundations of quantum field theory M. DOUGLAS	105
Homological algebra of knots and BPS states S. GUKOV and M. STOSIC	125
Motivic structures in QFT M. MARCOLLI	173
On 2d TQFT's whose values are holomorphic symplectic varieties G. MOORE and Y. TACHIKAWA	191
The Witten equation and the geometry of the Landau-Ginzburg model Y. RUAN	209
Non-Kähler Calabi-Yau manifolds L.-S. TSENG and S.-T. YAU	241
F theory GUTs: Global aspects and phenomenology S. SCHAFER-NAMEKI	255

Higgs bundles and string phenomenology M. WIJNHOLT	275
<b>Contributed talks:</b>	
Topological T-duality with monodromy D. BARAGLIA	293
Variable transformation defects N. BEHR and S. FREDENHAGEN	303
The D-brane U-scan E. BERGSHOEFF and F. RICCIONI	313
An invitation to algebraic topological string theory N. CARQUEVILLE and M. KAY	323
Landau-Ginzburg mirror symmetry for orbifolded Frobenius algebras A. FRANCIS, T. JARVIS, D. JOHNSON, and R. SUGGS	333
Hirzebruch invariants of elliptic fibrations J. FULLWOOD and M. VAN HOEIJ	355
$G_2$ structure deformations and warped products S. GREGORIAN	367
Noncommutative solitons and quasi-determinants M. HAMANAKA	381
Computing cohomology on toric varieties B. JURKE	391
Fibrancy of symplectic homology in cotangent bundles T. KRAGH	401
Curved string topology and tangential Fukaya categories D. POMERLEANO	409
Target space dualities of heterotic grand unified theories T. RAHN	423
Freed-Witten anomaly and D-brane gauge theories F. RUFFINO	433
Singularity structure and massless dyons of pure Seiberg-Witten theories with SU and Sp gauge groups J. SEO	443
Introduction to the theory of higher rank stable pairs and virtual localization A. SHESHMANI	455
HMS for punctured tori and categorical mapping class group actions N. SIBILLA	467
Vanishing chiral algebras and Hohn-Stolz conjecture J. YAGI	477
