

Contents

Preface	v
A mathematical descendants list	ix
Publications of Friedrich (Fritz) Gesztesy	xi
Invariant measures for stochastic differential equations on networks SERGIO ALBEVERIO, LUCA DI PERSIO, and ELISA MASTROGIACOMO	1
On the spectra of large sparse graphs with cycles D. BOLLÉ, F. L. METZ, and I. NERI	35
Jones' extension operator on Sobolev spaces with partially vanishing traces KEVIN BREWSTER, DORINA MITREA, IRINA MITREA, and MARIUS MITREA	59
Some spectral properties of rooms and passages domains and their skeletons B. M. BROWN, W. D. EVANS, and I. G. WOOD	69
Finite gap Jacobi matrices: A review JACOB S. CHRISTIANSEN, BARRY SIMON, and MAXIM ZINCHENKO	87
Momentum operators on graphs PAVEL EXNER	105
Asymptotic parabolicity for strongly damped wave equations GENNI FRAGNELLI, GISÈLE RUIZ GOLDSTEIN, JEROME A. GOLDSTEIN, and SILVIA ROMANELLI	119
On rates in Euler's formula for C_0 -semigroups ALEXANDER GOMILKO and YURI TOMILOV	133
Construction of a Noncommutative Quantum Field Theory HARALD GROSSE and RAIMAR WULKENHAAR	153
Periodic conservative solutions for the two-component Camassa–Holm system KATRIN GRUNERT, HELGE HOLDEN, and XAVIER RAYNAUD	165
A minimal uncertainty product for one dimensional semiclassical wave packets GEORGE A. HAGEDORN	183
On a transformation of Bohl and its discrete analogue EVANS M. HARRELL II and MANWAH LILIAN WONG	191

The Morse and Maslov indices for matrix Hill's equations CHRISTOPHER K. R. T. JONES, YURI LATUSHKIN, and ROBERT MARANGELL	205
1-D Schrödinger operators with local point interactions: a review ALEKSEY KOSTENKO and MARK MALAMUD	235
Inverse problem for small oscillations YU. I. LYUBARSKII and V. A. MARCHENKO	263
On the Weyl-Titchmarsh and Livšic functions K. A. MAKAROV and E. TSEKANOVSKIĬ	291
Stability for the inverse resonance problem for the CMV operator ROMAN SHTERENBERG, RUDI WEIKARD, and MAXIM ZINCHENKO	315
On a conjecture of A. Bikchentaev F. A. SUKOCHEV	327
Spectral theory as influenced by Fritz Gesztesy GERALD TESCHL and KARL UNTERKOFLEDER	341
Prescribed asymptotic behavior for nonlinear second-order dynamic equations MEHMET ÜNAL and AĞACIK ZAFER	365
