
Index

- coefficient
 - q -binomial, 64–71
 - binomial, 57–60, 189
 - Littlewood–Richardson, 304–307
- content
 - of a semistandard skew tableau, 121
 - of a semistandard tableau, 82
- correspondence
 - RSK, 228–231, 241, 251, 272
- descent, 73
- equivalence
 - Knuth, 278–285, 301
- formal power series, 13–17, 48, 193–194
- formula
 - Cauchy’s, 199
 - hook-length, 246
- function
 - chromatic symmetric, 146–153
 - complete homogeneous
 - symmetric, 39–44, 72, 77, 158–159, 164, 170–171, 178, 191–193, 199–200, 248–254
 - complete homogeneous symmetric, 160
 - dual stable Grothendieck, 139–144
 - elementary symmetric, 24–38, 72, 76–77, 149–152, 171–175, 177–178, 200
 - forgotten symmetric, 182–183, 189, 200
 - monomial symmetric, 17–18, 25–28, 40–41, 181–183, 191–193, 199–200
 - power sum symmetric, 44–48, 71–72, 180, 191–193, 201–202, 256–257, 265–268
 - Schur, 79, 86–87, 89, 125–129, 134–137, 142–144, 158–159, 170–172, 177–178, 191–193, 199, 220, 248–257, 265–268, 302–303
 - skew Schur, 120–129, 188, 291, 302–303
 - stable Grothendieck, 130–137
- growth diagrams, 232–242
- hook-length, 326
- identity
 - first Jacobi–Trudi, 157–171
 - hockey stick, 70
 - second Jacobi–Trudi, 171–178
- independent
 - algebraically, 36–38, 44, 47–49
- inner product

- Hall, 196–197, 200–201, 205–207, 253–254
- inversion, 65–67, 104–105, 166–168, 332
- involution, 43, 56, 71, 96, 99, 115, 140–143, 153, 165, 166, 176, 187–188, 245, 324, 334
- ω , 178–183, 196–197
- Bender–Knuth, 82–86, 111–113, 121, 132, 134, 140
- jeu de taquin*, 274
- major index, 73
- number
- Kostka, 87–89, 113–114, 116, 182, 189, 192, 207, 253–255
- skew Kostka, 121–122, 252–253, 255
- Stirling of the first kind, 60–64
- Stirling of the second kind, 60, 62–64
- order
- dominance, 49
- lexicographic, 30–32, 87–89
- partition
- integer, 323–325
- reverse plane, 137–138, 140–142, 220
- set, 60
- path
- bumping, 215–218
- permutation, 327–333
- generalized, 197–199, 214, 226, 232
- polynomial
- alternating, 89–96, 115
- chromatic, 145–147, 153–154
- complete homogeneous
- symmetric, 39–40, 53–54, 57–58, 62–63, 69, 71–72, 77
- dual stable Grothendieck, 139–144
- elementary symmetric, 24–27, 53–54, 57–58, 62–63, 69–70, 72, 76–77
- monomial symmetric, 8–13, 79–81
- power sum symmetric, 45
- Schur, 79–81, 86–87, 95–96, 110–111
- skew Schur, 120–129
- stable Grothendieck, 130–137
- rectification, 273–278
- rule
- first Pieri, 248–252
- Littlewood–Richardson, 291–303
- Murnaghan–Nakayama, 256–269
- second Pieri, 254–255
- sequence
- bumping, 215–218
- strip
- border, 258
- horizontal, 249, 260–265
- vertical, 249, 260–265
- subsequence
- longest increasing, 243, 245
- tableau
- border strip, 266–269
- elegant, 136–137, 220–223
- semistandard, 78–81, 120, 168–170, 176–177, 187, 209–231, 251, 254, 272–278
- semistandard skew, 120, 124
- set-valued semistandard, 129–130, 132–133
- standard, 244–245
- tournament, 114–115
- tree, 146, 152
- word
- Littlewood–Richardson, 301–303
- reading, 99–100
