

# Index

- $4n^2$ -inequality, 50
- $8n^2$ -inequality, 73, 130, 346
- $K$ -condition, 176, 260, 262
- $K$ -trivial (elliptic) structure, 144
- $K^2$ -condition, 177, 191, 200, 240, 258, 259, 261
  
- birational fibrewise modifications, 157, 159, 166
- birational involution, 15, 21, 47, 68, 69, 84, 157, 158, 178, 256, 263
- birational map, 13
- birational rigidity, 40, 156
- birational self-map, 14, 45, 70, 90, 156, 157, 180, 182
  
- canonical adjunction, 37
- Clebsch-Noether inequality, 17
- cone technique, 18, 49, 145
- conic bundle, 23, 159
- connectedness principle, 54, 73, 302, 304
- counting multiplicities, 51, 54, 197, 236, 336
  
- del Pezzo fibration, 27, 182, 253
- discrepancy, 41
- divisorial (log)canonicity, 184, 291
  
- exclusion of maximal singularities, 46
  
- Fano complete intersection, 123
- Fano cyclic cover, 130
- Fano direct product, 184, 285
- Fano double space, 323
- Fano hypersurface, 116
- Fano primitive variety, 38
- Fano standard fibre space, 154
  
- graph modified, 78, 105, 339
- graph of a sequence of blow ups, 43, 53, 60, 65, 337
  
- horizontal subvariety, 189, 190
- hypertangent divisor, 117, 125, 223, 224, 226, 230, 246, 322
- hypertangent linear system, 119, 126, 205, 219, 249, 295, 318
  
- infinitely near maximal singularities, 48
  
- Lüroth problem, 14, 22
- link, 165
  
- maximal singularity, 42
- maximal subvariety, 42, 325, 331
- method of maximal singularities, 34, 46, 157
  
- Noether-Fano inequality, 42, 44, 195, 288, 325
  
- pencil of Fano complete intersections, 179, 241
- pencil of Fano cyclic covers, 181, 213, 246
- pencil of Fano hypersurfaces, 202
  
- quartic hypersurface, 20, 22, 51, 59
  
- rational connectedness, 28
- rationality, 10
- rationally connected fibre space, 31, 156
- regularity conditions, 121, 123, 131, 132, 134, 215, 247, 292, 293, 310
- resolution of a maximal singularity, 43
- resolution of singularities, 13
  
- self-intersection of a mobile system, 49, 177
- structure of a rationally connected fibre space, 31, 156
- supermaximal singularity, 196, 266
  
- test class, 64
- threshold of canonical adjunction, 38
  
- unirationality, 14
- untwisting of maximal singularities, 46
  
- Veronese double cone, 259
- vertical subvariety, 189, 190
- virtual threshold of canonical adjunction, 39
