

Index

- adjoint operator, 30, 77
- Almansi expansion, 133
- analytic arc, 73
- antenna problem, 81
- arclength quadrature domain, 196
- Asgeirsson's theorem, 115
- axially symmetric surface, 86, 187

- Bernstein's inequality, 111
- Bessel function, 26, 79
- bicharacteristics, 155
- Bony-Schapira theorem, 39, 51, 69, 101
- Brelot-Choquet theorem, 137, 138

- Cauchy problem, 4, 7, 15, 21, 31, 68, 99, 107, 130, 151, 182
- Cauchy-Hadamard estimate, 109
- Cauchy-Kovalevskaya theorem, 7, 13, 15, 22, 100, 152
- characteristic, 16, 19
- characteristic form of a differential operator, 16
- characteristic point, 17, 53, 151
- characteristic surface, 176
- complex hyperplane, 19
- confocal family of ellipsoids, 115
- conformally symmetric, 56
- continuation of potentials, 1, 101
- continuity method, 35

- Delassus-Le Roux theorem, 22, 153
- differential operator, 19
- Dirichlet problem, 113, 133, 139
- domain of holomorphy, 20
- domain of hyperbolicity, 127, 130

- ellipsoid, 1, 115, 123, 133, 167, 185, 195

- ellipsoid cavity, 125
- elliptic polynomial, 140, 145
- entire function, 14
- equilibrium potential, 129
- existence theorem for ODE, 30
- exterior potential, 121

- Fischer inner product, 116
- Fischer's inner product, 122
- focal ellipsoid, 115

- globalizing family, 25, 39, 56, 69, 179
- globalizing principle, 25, 51
- Goursat problem, 17, 26, 77

- harmonic divisor, 137
- harmonicity hull, 50
- heat equation, 14, 27
- Helmholtz equation, 77, 149
- Helmholtz operator, 26
- Herglotz's theorem, 102
- Holmgren's theorem, 29, 30, 35, 42
- holomorphic function, 6
- homothetic ellipsoids, 128, 185

- interior potential, 128
- involution, 74
- isotropic cone, 21, 25, 80, 84, 113, 153, 171, 178
- Ivory's theorem, 129

- Jacobi polynomials, 59

- Kelvin reflection, 87
- Khavinson-Shapiro conjecture, 136, 139, 149
- Kovalevskaya's theorem, 29, 75, 102

- L. Schwartz's theorem, 85, 178
- Laplace equation, 14

- Laplace operator (Laplacian), 16, 76
 Laplacian growth, 181
 Legendre polynomial, 57
 lemniscate, 197
 Leray's principle, 158
 Lie ball, 49, 54, 56

 MacLaurin's theorem, 115, 122, 195
 mean value property, 1, 115
 Morera's theorem, 29, 75
 multi-index, 5

 Nehari's theorem, 66
 Newton's theorem, 127, 130
 Newtonian potential, 1, 55, 119
 non-characteristic, 16, 19
 non-singular analytic hypersurface,
 15
 null quadrature domains, 196
 Nullstellensatz, 117, 119, 140

 oblate spheroid, 120, 179

 Persson, 169
 polar singularity, 84, 85
 polydisk, 6
 potential, 1, 102
 prolate spheroid, 120, 179

 quadrature domain, 103, 195
 quadrature identity, 121

 real hyperplane, 19
 reflection law, 74, 77, 80, 83, 84
 Riemann function, 18, 26, 77, 78, 80
 Riemann mapping theorem, 53

 Riemann's formula, 78, 99
 Riemann's lemma, 77

 Schwarz function, 73, 81, 87, 100,
 182, 196
 Schwarz potential, 103, 107, 121,
 128, 179, 182
 Schwarz potential conjecture, 103,
 106
 Schwarz reflection principle, 3, 6, 74,
 88
 single layer potential, 125
 standard single layer potential, 125
 strong Study relation, 90, 97
 Study relation, 83, 87, 97
 Study's interpretation of the
 Schwarz reflection principle, 75
 symmetry with respect to a curve, 75
 Szegő's theorem, 58

 torus, 46

 uniqueness of potentials, 2, 45

 Vekua hull, 48, 56

 wave equation, 75
 wave operator, 76
 Weierstrass approximation theorem,
 79
 Weierstrass preparation theorem,
 104
 Weyl's lemma, 85

 Zerner characteristic, 20
 Zerner's theorem, 19, 41
