Preface to the First Edition	ix
Preface to the Second Edition	xi
1 An Introduction to Baseball Statistics	1
2 Exploring a Single Batch of Baseball Data	13
2.1 Looking at Teams' Offensive Statistics	13
2.2 A Tribute to Derek Jeter	17
2.3 A Tribute to Randy Johnson	20
2.4 Analyzing Baseball Attendance	23
2.5 Manager Statistics: the Use of Sacrifice Bunts	26
2.6 Exercises	28
3 Comparing Batches and Standardization	45
3.1 Albert Pujols and Manny Ramirez	45
3.2 Robin Roberts and Whitey Ford	50
3.3 Home Runs: A Comparison of Four Seasons	54
3.4 Slugging Percentages are Normal	57
3.5 Great Batting Averages	59
3.6 Exercises	61
4 Relationships Between Measurement Variables	73
4.1 Relationships in Team Offensive Statistics	73
4.2 Runs and Offensive Statistics	78
4.3 Most Valuable Hitting Statistics	80
4.4 A New Measure of Offensive Performance	86
4.5 How Important is a Run?	88
4.6 Baseball Players Regress to the Mean	91
4.7 Exercises	94

5	Introduction to Probability Using Tabletop Games	111
5.1	What is Chris Davis' Home Run Probability?.....	111
5.2	<i>Big League Baseball</i>	114
5.3	<i>All-Star Baseball</i>	116
5.4	<i>Strat-O-Matic Baseball</i>	119
5.5	Exercises.....	124
6	Probability Distributions and Baseball	139
6.1	The Binomial Distribution and Hits per Game.....	139
6.2	Modeling Runs Scored: Getting on Base.....	142
6.3	Modeling Runs Scored: Advancing the Runners to Home.....	144
6.4	Exercises.....	148
7	Introduction to Statistical Inference	155
7.1	Ability and Performance.....	155
7.2	Simulating a Batter's Performance if His Ability is Known.....	157
7.3	Learning About a Batter's Ability.....	159
7.4	Interval Estimates for Ability.....	161
7.5	Comparing Wade Boggs and Tony Gwynn.....	165
7.6	Exercises.....	168
8	Topics in Statistical Inference	175
8.1	Situational Hitting Statistics for Mike Trout.....	176
8.2	Observed Situational Effects for Many Players.....	178
8.3	Modeling On-Base Percentages for Many Players.....	181
8.4	Models for Situational Effects.....	185
8.5	Is Michael Brantley Streaky?.....	188
8.6	A Streaky Die.....	191
8.7	Exercises.....	193
9	Modeling Baseball Using a Markov Chain	211
9.1	Introduction to a Markov Chain.....	211
9.2	A Half-inning of Baseball as a Markov Chain.....	215
9.3	Useful Markov Chain Calculations.....	217
9.4	The Value of Different On-base Events.....	222
9.5	Answering Questions About Baseball Strategy.....	224
9.6	Exercises.....	225
A	An Introduction to Baseball	233
A.1	The Game of Baseball.....	233
A.2	One Half-Inning of Baseball.....	234
A.3	The Boxscore: A Statistical Record of a Baseball Game.....	235
	Bibliography	239
	Index	241
