Preface to Second Edition	vii
Note for Students	xv
1 Sequences and Number Patterns	1
1.1 Number Patterns	4
1.1 Exercises	8
1.2 Position Numbers, Graphs, and Subscript Notation	14
1.2 Exercises	22
1.3 Difference and Functional Equations	27
1.3 Exercises	32
2 Arithmetic Growth Models	39
2.1 Properties of Arithmetic Growth	40
2.1 Exercises	51
2.2 Applications of Arithmetic Growth	57
2.2 Exercises	78
2.3 Linear Functions and Equations	82
2.3 Exercises	97
2.4 Applying Linear Functions and Equations	101
2.4 Exercises	115
3 Quadratic Growth	121
3.1 Properties of Quadratic Growth	121
3.1 Exercises	137
3.2 Applications of Quadratic Growth	142
3.2 Exercises	162
3.3 Quadratic Functions and Equations	168
3.3 Exercises	186
3.4 Quadratic Models for Revenue and Profit	190
3.4 Exercises	196
4 Geometric Growth	201
4.1 Properties of Geometric Growth Sequences	201
4.1 Exercises	214
4.2 Applications of Geometric Growth Sequences	219
4.2 Exercises	236
4.3 Exponential Functions	247

4.3 Exercises	264
4.4 Applications of Exponential Functions	270
4.4 Exercises	283
4.5 More About e	290
4.5 Exercises	294
5 Mixed Growth Models	297
5.1 Properties of Mixed Growth Sequences	297
5.1 Exercises	312
5.2 Applications of Mixed Growth Sequences	319
5.2 Exercises	347
6 Logistic Growth	359
6.1 Properties of Logistic Growth Sequences	360
6.1 Exercises	382
6.2 Chaos in Logistic Growth Sequences	390
6.2 Exercises	407
6.3 Refined Logistic Growth	408
6.3 Exercises	431
Selected Answers to Exercises	441
Bibliography	501
Index	505
