On the scientific work of M. Sh. Birman in 1998–2007 M. SOLOMYAK and T. SUSLINA	1
Continuation of the list of publications of M. Sh. Birman	17
Perturbations of the continuous spectrum of a singular elliptic operator by varying the boundary and the boundary conditions M. SH. BIRMAN	19
Asymptotic behavior of the eigenfunctions of the many-particle Schrödinger operator. I. One-dimensional particles V. S. BUSLAEV and S. B. LEVIN	55
Spectral asymptotics of the Maxwell operator on Lipschitz manifolds with boundary M. N. DEMCHENKO and N. D. FILONOV	73
Spectral inequalities for Schrödinger operators with surface potentials RUPERT L. FRANK and ARI LAPTEV	91
On the spectrum of the Dirichlet Laplacian in a narrow infinite strip LEONID FRIEDLANDER and MICHAEL SOLOMYAK	103
Lyapunov functions of periodic matrix-valued Jacobi operators EVGENY KOROTYAEV and ANTON KUTSENKO	117
Hardy inequalities for simply connected planar domains ARI LAPTEV and ALEXANDER V. SOBOLEV	133
The spectral flow, the Fredholm index, and the spectral shift function ALEXANDER PUSHNITSKI	141
On the spectrum of a translationally invariant Pauli operator GEORGI RAIKOV	157
Discrete spectrum distribution of the Landau operator perturbed by an expanding electric potential GRIGORI ROZENBLUM and ALEXANDER V. SOBOLEV	169
On the comparison of the Dirichlet and Neumann counting functions Y. SAFAROV	191
Absolutely continuous spectrum of multi-dimensional Schrödinger operators with slowly decaying potentials O. SAFRONOV	205

On the discrete spectrum of the perturbed periodic magnetic Schrödinger operator with degenerate lower edge of the spectrum	215
ROMAN SHTERENBERG	
Homogenization of periodic second order differential operators including first order terms	227
T. A. SUSLINA	
Improved Berezin–Li–Yau inequalities with a remainder term	253
TIMO WEIDL	
Spectral and scattering theory of fourth order differential operators	265
D. R. YAFAEV
