ERRATUM TO “ON THE ASYMPTOTICS OF WHITTAKER FUNCTIONS”

EREZ LAPID AND ZHENGYU MAO

In [LM09] we failed to observe that a relation between the asymptotics of the Whittaker function and the Jacquet functor is already made explicit in the last section of [CS80]. In fact, as was pointed out to us by Casselman, a substantial part of the proof of [LM09, Theorem 1] reproduces the argument in [CS80, §6] as well as the argument in [Cas, §4] on which it depends. We regret this oversight.
