The *Journal of Algebraic Geometry*, published quarterly by University Press, Inc., is devoted to the publication of research papers in algebraic geometry, singularity theory, and related subjects such as number theory, commutative algebra, projective geometry, complex geometry, and geometric topology.

Starting with the 2002 subscription, the *Journal of Algebraic Geometry* is available in both electronic and paper delivery. List price is US\$498 for electronic + paper delivery, US\$462 for electronic only; the price for individuals is US\$208 for electronic + paper delivery, US\$182 for electronic only. If ordering the paper version, add US\$5.75 for delivery within the United States, US\$12 for delivery outside the United States. Subscription renewals are subject to late fees. See www.ams.org/journal-faq for more information.

Subscriptions and orders should be addressed to the American Mathematical Society, P. O. Box 845904, Boston, MA 02284-5904 USA. Telephone 1-800-321-4267, Fax (401)-331-3842. All orders must be accompanied by payment, and checks should be made payable to the American Mathematical Society. General correspondence and changes of address should be sent to the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213 USA.

Instructions for submission of manuscripts are given on the inside back cover of this issue.

This journal is indexed in *Science Citation IndexTM-Expanded*, *ISI Alerting ServicesSM*, *CompuMath Citation Index[®]*, *Current Contents[®]/Physical, Chemical & Earth Sciences*.

ISSN 1056-3911 (print); ISSN 1534-7486 (online)

Printed in the United States of America.

⊗ The paper used in this issue is acid-free and falls within the guidelines established to ensure permanence and durability.

INDEX

Auel, Asher, Christian Böhning, Hans-Christian Graf von Bothmer, and Alena Pirutka, <i>Conic bundle fourfolds with nontrivial unramified Brauer group</i>	285
Böhning, Christian, <i>See</i> Auel, Asher	285
Brezner, Uri, and Michael Temkin, <i>Lifting problem for minimally wild covers of Berkovich curves</i>	123
Burungale, Ashay A., <i>On the non-triviality of the p-adic Abel–Jacobi image of generalised Heegner cycles modulo p, I: Modular curves</i>	329
Dao, Hailong, Osamu Iyama, Ryo Takahashi, and Michael Wemyss, <i>Gorenstein modifications and \mathbb{Q}-Gorenstein rings</i>	729
Deninger, Christopher, and Annette Werner, <i>Parallel transport for vector bundles on p-adic varieties</i>	1
Fiedler-Le Touzé, S., S. Orevkov, and E. Shustin, <i>Corrigendum to “A flexible affine M-sextic which is algebraically unrealizable”</i>	109
Fu, Lie, and Charles Vial, <i>Distinguished cycles on varieties with motive of abelian type and the Section Property</i>	53
Graf von Bothmer, Hans-Christian, <i>See</i> Auel, Asher	285
Gupta, Rahul, and Amalendu Krishna, <i>K-theory and 0-cycles on schemes</i>	547
Hauton, Olivier, <i>Diagonalisable p-groups cannot fix exactly one point on projective varieties</i>	373
Iyama, Osamu, <i>See</i> Dao, Hailong	729
Krishna, Amalendu, <i>See</i> Gupta, Rahul	547
Krishna, Amalendu, and Bhamidi Sreedhar, <i>Atiyah–Segal theorem for Deligne–Mumford stacks and applications</i>	403
Kummer, Mario, and Eli Shamovich, <i>Real fibered morphisms and Ulrich sheaves</i>	167
Li, Shizhang, <i>On rigid varieties with projective reduction</i>	669
Markman, Eyal, <i>The Beauville–Bogomolov class as a characteristic class</i>	199
Obus, Andrew, and Stefan Wewers, <i>Explicit resolution of weak wild quotient singularities on arithmetic surfaces</i>	691
Orevkov, S., <i>See</i> Fiedler-Le Touzé, S.	109
Pirutka, Alena, <i>See</i> Auel, Asher	285
Schmidt, Benjamin, <i>Bridgeland stability on threefolds: Some wall crossings</i>	247
Shamovich, Eli, <i>See</i> Kummer, Mario	167
Shustin, E., <i>See</i> Fiedler-Le Touzé, S.	109
Sreedhar, Bhamidi, <i>See</i> Krishna, Amalendu	403
Takahashi, Ryo, <i>See</i> Dao, Hailong	729
Tanaka, Yuuji, and Richard P. Thomas, <i>Vafa–Witten invariants for projective surfaces I: stable case</i>	603
Temkin, Michael, <i>See</i> Brezner, Uri	123

Thomas, Richard P., <i>See</i> Tanaka, Yuuji	603
Tonini, Fabio, and Takehiko Yasuda, <i>Moduli of formal torsors</i>	753
Vial, Charles, <i>See</i> Fu, Lie	53
Wemyss, Michael, <i>See</i> Dao, Hailong	729
Werner, Annette, <i>See</i> Deninger, Christopher	1
Wewers, Stefan, <i>See</i> Obus, Andrew	691
Yasuda, Takehiko, <i>See</i> Tonini, Fabio	753
Yatagawa, Yuri, <i>Characteristic cycle of a rank one sheaf and ramification theory</i>	471

INFORMATION FOR AUTHORS

Submission of Manuscripts. All manuscripts should be electronically prepared in $\mathcal{A}\mathcal{M}\mathcal{S}\text{-}\mathcal{L}\mathcal{A}\mathcal{T}\mathcal{E}\mathcal{X}$. A PDF file of the manuscript should be sent via email to the Managing Editor or to any member of the Editorial Board. Authors are encouraged to submit manuscripts written in English. An abstract of at least one complete sentence and at most 300 words is required for every paper. The *Journal of Algebraic Geometry* offers free worldwide access to the electronic abstracts. All author names must be in First-Middle-Surname order. A manuscript accepted for publication must be typeset by the author(s) in $\mathcal{A}\mathcal{M}\mathcal{S}\text{-}\mathcal{L}\mathcal{A}\mathcal{T}\mathcal{E}\mathcal{X}$.

Authors should supply email addresses if available and current postal addresses, along with their affiliations, on the last page of the manuscript. To help avoid delays in publication, authors are encouraged to send changes in postal and email addresses to jag-query@ams.org, especially before proof has been sent to authors. Articles are electronically published after proof is returned from authors and before appearing in an issue. Once an article is published electronically, author information, such as postal and email addresses, cannot be updated.

To eliminate unnecessary delay or difficulties in printing, authors may be guided by the book *Mathematics into Type*, updated edition, Amer. Math. Soc., 1999.

Footnotes, except a possible acknowledgment of assistance or financial support on the first page, should be avoided by being incorporated into the text, perhaps parenthetically.

References will be published as submitted. For the best presentation, the list of references must be submitted in alphabetical-chronological order; abbreviations of names of journals and references to books should follow the standard form established by Mathematical Reviews. Abbreviations used in bibliographies are accessible from www.ams.org/msnhtml/serials.pdf. The following references are two typical examples:

- [1] R. Hartshorne, *Algebraic geometry*, Graduate Texts in Mathematics 52, Springer-Verlag, New York, Heidelberg, Berlin, 1977.
- [2] N. Hochster and J. L. Roberts, *Rings of invariants of reductive groups acting on regular rings are Cohen-Macaulay*, *Adv. Math.* **13** (1974) 115–175.

An $\mathcal{A}\mathcal{M}\mathcal{S}\text{-}\mathcal{L}\mathcal{A}\mathcal{T}\mathcal{E}\mathcal{X}$ author package has been prepared for the convenience of the author. The author package includes instructions for preparing electronic manuscripts, the *AMS Author Handbook*, samples, and a style file. Authors who make use of these style files from the beginning of the writing process will reduce their own effort. Comprehensive instructions on preparing graphics are available starting from www.ams.org/jourhtml/authors.html.

Authors may retrieve an author package for *Journal of Algebraic Geometry* from www.ams.org/jag/jagauthorpac.html. The *AMS Author Handbook* is available in PDF format from the author package link. The author package can also be obtained free of charge by sending email to tech-support@ams.org or from the Publication Division, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213 USA. When requesting an author package, please specify $\mathcal{A}\mathcal{M}\mathcal{S}\text{-}\mathcal{L}\mathcal{A}\mathcal{T}\mathcal{E}\mathcal{X}$ and the publication in which your paper will appear. Please be sure to include your complete email address.

Immediately after a paper has been accepted for publication, the electronically prepared manuscripts (.tex files) should be submitted via the web at www.ams.org/submit-book-journal/, sent via email to pub-submit@ams.org, or sent on CD to the Electronic Prepress Department, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213 USA. When submitting electronic manuscripts via email or CD, please include a message indicating that the paper has been accepted for publication in the *Journal of Algebraic Geometry*. The author should also send one hard copy of the final version of the paper to the Managing Editor.

Proofs. Authors receive only one set of proofs for corrections and will be responsible for the expense of making excessive alterations to the original manuscript during the proof-reading. Authors will be responsible for adjustments made to artwork not provided in camera-ready form.

Offprints. Offprints are provided free of charge in electronic format. A downloadable and printable PDF version of the published article will be available on the AMS website at www.ams.org/myoffprints immediately following each issue's publication date.
