

CORRECTION.

In the report of the sectional meetings of the Fourth International Congress of Mathematicians, published in the October number of the BULLETIN, an error occurs in the abstract of Professor Dingeldey's paper (on page 20 of the report), the third and fourth lines of which should read ". . . to generate the circle, the equilateral hyperbola, and the parabola . . ."

NOTES.

THE annual meeting of the AMERICAN MATHEMATICAL SOCIETY will be held this year at Baltimore, on Wednesday and Thursday, December 30–31, in affiliation with the American association for the advancement of science. President H. S. WHITE's address, on "Bezout's theory of resultants and its influence on geometry," will be delivered at the opening of the afternoon session on Wednesday. The annual election will close on Thursday morning. Abstracts of papers intended for presentation at this meeting should be in the hands of the Secretary as early as December 12.

THE twenty-third regular meeting of the Chicago Section of the AMERICAN MATHEMATICAL SOCIETY will be held at the University of Chicago, on Friday and Saturday, January 1–2, 1909. Titles and abstracts of papers intended for presentation at this meeting should be in the hands of the Secretary of the Section, Professor H. E. SLAUGHT, University of Chicago, on or before December 10.

THE American federation of teachers of science and mathematics will hold its annual meeting at Baltimore on Monday and Tuesday, December 28–29. Further details may be had of Professor H. W. TYLER, chairman of the executive committee, Massachusetts Institute of Technology, or of Professor C. R. MANN, Secretary, University of Chicago.

THE opening (October) number of volume 10 of the *Annals of Mathematics* contains the following papers: "On the small forced vibrations of systems with one degree of freedom," by MAXIME BÔCHER; "Two principles of map-making," by J.
